BASE GAME

HIGH OCTANE WILD CHASING FUN

HARMONIOUS FEATURE PLAY

The base game features big bold symbols and 3 possible features all designed to work in perfect harmony with each other.

Frequent wins and good hit rates for the features will keep the players engaged while they wait for “the big one”

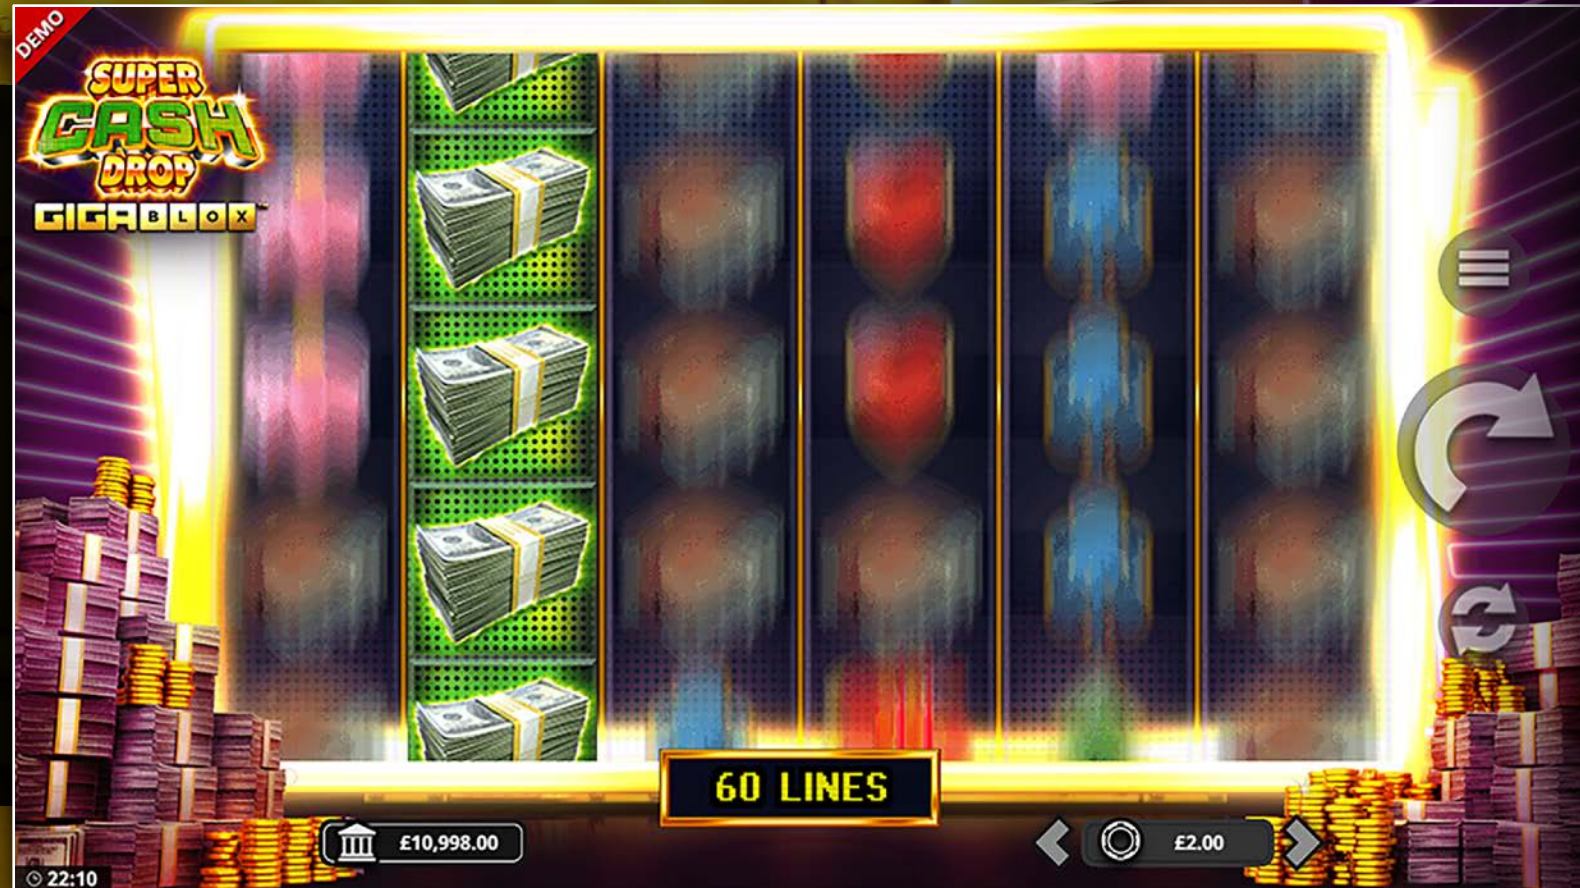

SUPER REEL EXPAND

REEL HEIGHT CHANGES THAT ARE FAST,
FREQUENT AND FAIR!

UP TO 60 WIN LINES!

The changeable line height on any given spin results in reel heights up to 6x6 and blends perfectly with the super-stacks of wilds and GigaBlox fan's expectations for HUGE box for immediately identifiable win potential.

SUPER STRETCH WILD

This feature rewards the player for landing a larger chunk of the wild stack!

Land a wild and it turns the reel wild, but each additional wild from the stack that lands in view increases the multiplier.

This multiplier is cumulative with other wild reels, and dovetails perfectly with the SUPER REEL EXPAND delivering up to x8 on wins through EACH REEL!

Reels turn WILD and get + x1 for each wild initially landed.

Land one or more WILDS on a reel or as a GIGABLOX

LOCKED STRETCH WILD

SUPER STRETCH WILDS are the way to unlock the game's full win potential when they land as special LOCK AND RESPIN versions!

The feature generously pays out on each subsequent respin, and the player has the chance to win big with cumulative wild multipliers across multiple reels!

The feature continues LOCK AND RESPIN for each new wild landed!

Feature pays on EVERY respin, not just the final one!
