## HOW TO PLAY

To play **Book of Oasis**, the player simply sets bets and clicks the spin button to spin the reels. If player manages to hit at least the minimum required amount of identical symbols\* on an active payline starting from the leftmost reel, he has won.

The more symbols player manages to hit on an active payline, the better its payout will be. Only the highest win is paid for each active payline. The payout is explained in the game payable.

Three or more scatter start freagame feature.

# PAYLINES

**Book of Oasis** is played on 10 paylines.

Player can select or deselect them by clicking on the line button in the control panel. Players can choose to play on 5 or 10 paylines.

## Free game feature

Free game feature allow player to spin the reels and collect wins, without placing a bet. Free spins play at the same bet amount as the last spin.

The free game feature starts when 3, 4 or 5 SCATTER on the reels appear.

The free game feature starts with a draw of a bonus symbol. Every symbol except the WILD is able to become a bonus symbol.

When at least 2 or 3 bonus symbols occur on different reels (depending on the symbol, a win has to be formed), after the win evaluation of the line wins the reels with bonus symbols are stamped to full bonus symbol reels.

The bonus symbols are evaluated as scatter-on-win-line.

During free games feature it is possible to trigger additional free games. The retrigger count is unbounded.

When the free game feature ends, a pop-up summary appears on the screen.

The entire win of the free game feature can also be gambled if this win does not exceed the gamble limit.

# GAMBLE FEATURE

## Gamble feature

The gamble feature gives players an option to increase their winnings by gambling the main slot game and free game feature wins. The player can choose between card gamble and risk ladder gamble. None of the gambling features affect game's RTP.

## Card gamble

In the card gamble game players are presented with a closed deck of cards and they have to guess the colour of the top card by pressing the respective button (red or black). Wins from the card gamble game can be gambled again with, all players need to do is choose the next card's colour. Players can end the gamble feature by collecting their winnings and adding them to their balance by pressing the collect button. The gamble feature is over when a player makes an incorrect guess or the pre-set gamble limit has been reached.

The player has also the possibility to collect half of his win by pressing the split win button. The second half can still be gambled with. Payout ratio in card gamble game is 1:1.

## Risk ladder gamble

In the risk ladder gamble game players are presented with a ladder of win levels and they have a chance to climb up the ladder or fall down (where not all steps are "double or nothing") by pressing the gambling button. The initial gambling value on the ladder depends on the initial winning value. Wins from the risk ladder game can be gambled again with, all players need to do is press the gambling button again.

Players can end the gamble feature by collecting their winnings and adding them to their balance by pressing the collect button. The gamble feature is over when a player lands on Zero or the pre-set gamble limit has been reached.

The player has also the possibility to collect a part of his win by pressing the split win button. The other part can still be gambled with.
