Pay Table	06
Blind Structure	07
Gameplay	08

Microgaming presents a completely upgraded brand of Texas Hold'em Sit & Go with a spectacular Wild Wild West theme. Following in the footsteps of the popular Hold'em Poker, this ain't our first rodeo! Get back in the saddle with Lucky Showdown which also brings the excitement and anticipation of a spinning progressive wagon wheel to generate the prize for the tournament.

This game introduces a more realistic, fantasy world of the very popular, well recognised Cow-boy and Western genre. This style of aesthetic holds appeal for all generations of casino players. With major enhancements on 3D character illustration and the old school Saloon themed table, cards and environment. A rich authentic Country and Western soundtrack amplifies the Wild west poker experience.

Players can watch with great excitement as the splendid prize pool wheel spins into play to randomly select one of eight different prize amounts. They could even find themselves playing for the coveted jackpot prize, which starts at an impressive €50,000 and grows with every tournament! It's sure to be a real wing-dinger!

The player as the Sherriff of town will battle it out for the Prize pool with 2 Bandits at a 3 seater table. With a higher buy-in of €10, the fast-paced Sit & Go tournament starts, providing poker fans with an action-packed, magnificent gameplay experience in both portrait and landscape mode. The higher buy-in increases the size of the Jackpot which makes this game so much more appealing to a more serious player.

Take a walk on the Wild side and get immersed in this addictive version of Hold'em Poker. Yee Haw!

Game type	Poker Sit & Go tournament
View modes	Landscape and portrait
Resolution support	This game is optimised for resolutions 1280x720 and 1024x768
