Features

Genuine mobile first approach

Our mobile-first approach is exactly what it sounds like: designing for the smallest screen and working our way up. This means that every game we produce is automatically optimised for mobile devices.

Auto-scratch

All our scratch cards feature our unique Auto play feature which supports the requirements of all major jurisdictions. The player can repeatedly play the game without being required to manually press the buy button. This considerably speeds up the gameplay and excitement.

Attractive design

All our games have strong visual branding that makes them stand out from the crowd. We have taken an almost forgotten vertical and created a much more competitive product that will attract new and existing players alike.
