

Deep in the heart of the Asian mountain ranges, at the top of the stairs of the Temple of Paw sits your symbol of luck and fortune, the Maneki cat, Miso.

This slot starts out as mellow as a warm Spring breeze in the base game but becomes as volatile as the Spring monsoons in the bonus game. And if Miso has you feeling extra lucky, the Gamble feature lets you gamble existing free spins for the chance to win more!

## MULTIPLIER

In the Temple base game, the multiplier increases with +1 every time a set of winning symbols is removed. In the Pawsperity Free Spins Bonus, the multiplier increases with +1 for each winning symbol that's removed. The multiplier is not reset between spins in the bonus game.

## GAMBLE

After winning the Pawsperity Free Spins bonus, you can gamble your existing Pawsperity Free Spins for the chance to gain more free spins. If you win the gamble, you will get an extra Cat Scatter. If you lose the gamble, you will lose your existing free spins.

You can gamble until you win the max of 6 Cat Scatters that will give you 22 free spins, or until you lose the gamble. You can collect your existing Cat Scatters at any stage.

## PAWSPERITY FREE SPINS BONUS

When you get 3 or more Cat Scatter symbols, the Pawsperity Free Spins bonus will start.

- 3 Cat Scatter symbols will initiate 7 free spins
- 4 Cat Scatter symbols will initiate 10 free spins
- 5 Cat Scatter symbols will initiate 15 free spins
- 6 Cat Scatter symbols will initiate 22 free spins (can only be triggered by the Gamble feature)

In addition, you can retrigger the Pawsperity Free Spins by landing 3 or more Cat Scatter symbols.

- 3 Cat Scatter symbols will retrigger and add 3 free spins
- 4 Cat Scatter symbols will retrigger and add 5 free spins
- 5 Cat Scatter symbols will retrigger and add 7 free spins

You cannot gamble retriggered Pawsperity Free Spins. The Free Spins Bonus continues until there are no Free Spins left.

## BUY FEATURE

You can pay to get instant entry to the Pawsperity Free Spins bonus. By paying 100x your bet, this feature will trigger with 3 or more Cat Scatters at the same frequency as when triggered by chance.
