ABOUT BANKRUSH BONANZA

Welcome to the west! Bankrush Bonanza is packed with exciting features that will reward players often and in very exciting ways with our 2 Loot Link features!

Example of Desktop Base Game

The base game features Wilds and Scatters. When landing 5 or more yellow circle scatters, the Scatter Lootlink feature is activated. This opens up a whole new independent matrix with 25 slots, where 10 are locked. 3 spins are granted, and they continue and are reset back to 3 whenever a new symbol lands. After 10 symbols have landed, the 4th row is unlocked, and 5 new slots are available. The 5th row gets unlocked after 14 total symbols are found on the reels. A jackpot symbol may land anytime, but if all 25 positions are covered, the Grand Jackpot is awarded!

Similar to the Scatter Lootlink is the gold bar Lootlink. It may start anytime when a Wild lands. This opens up a new independent matrix, where the goal is to collect as many gold bars as possible. Depending on the number collected, the awards vary, being 5,000x the maximum award when collecting 100 gold bars. The feature starts with 3 spins, and keeps respinning and resetting the spin counter back to 3 with every gold bar symbol landing. Gold bar symbols feature a number which corresponds with the number of gold bars collected on each slot. This number can randomly increase at the beginning of each spin.

Furthermore, free games are awarded when landing 3, 4 or 5 Free games symbols, granting 10, 15 or 25 free spins.

Bankrush Bonanza also features 2 Power bets: the Scatter loot link boost and the gold bar loot link boost. When the Scatter Boost Power bet is activated, only 4 symbols are needed to launch the Scatter Lootlink feature. The Scatter values are higher, the jackpots are 3x the value of the base mode and the spins counter has 4 spins instead of 3.

When the Gold bar loot link Boost is activated, it features a higher frequency to activate the loot link feature. It also increases the spin counter to 4, instead of 3, and the gold bar pays are 3x higher than the base mode.

FEATURES

Scatter Lootlink

Play an independent 25 slots matrix featuring scatters, when landing 5 or more yellow circle symbols on base game or bonus game. Start with 3 spins and 15 slots, respin and reset the spin counter back to 3 as long as a new symbol appears, and unlock the other 10 slots by landing enough yellow symbols (10 and 14 in total for the 4th and 5th locked rows). Jackpot symbols may appear. If all 25 positions are filled, a Grand Jackpot is granted. Before unlocking any row, and no more spins available, there is a random chance that a row is unlocked and another spin is granted.

Gold bar Lootlink

At any given time, when a Wild lands, the gold bar LootLink may be activated. Start with 3 spins, and respin as long as a new gold bar symbol land, and reset the spin counter back to 3. Collect gold bar symbols as seen in the top counter, and get rewards based on collected gold bars as seen on the left side. 100 gold bars collected will grant the max reward and end the feature. The multiplier value (in this case acts as the number of gold bars on that slot, rather than a common multiplier) on each gold bar may randomly increase at the beginning of each spin.
