

VIRTUAL FOOTBALL LEAGUE

PRODUCT SHEET

VIRTUAL FOOTBALL LEAGUE offers players the opportunity to enjoy a European Football Competition with all the excitement of its betting options, 24/7.

GAME DESCRIPTION

VIRTUAL FOOTBALL LEAGUE

Game ID: 5081

Our new game provides a very realistic football league betting experience, accessible from anywhere, at any time and all year long.

'Virtual Football League' presents all the attractions of a real-life football league competition with top-performing teams and exciting matches every few minutes, for your punters to enjoy 24/7, thanks to its super-realistic 3D soccer visualisation, combined with highly intuitive and easy to use UI.

Accessible from anywhere, at the bettor's convenience, the perfect football league environment we're introducing presents a series of beautifully rendered 3D football matches, and offers various fast-paced betting options, all for your players' fun!

'Virtual Football League' is played in a League format of 16 of the best European teams including Amsterdam, Barcelona, Liverpool, London, Lyon, Milano, Manchester, Madrid, Paris, Porto and others, thus lending the game an even more realistic feel.

'Virtual Football League' continues to blur the boundaries between virtual and live sports and consists of a continuing series of games played throughout a full season just like you would find in a real-life football competition, creating excitement with each goal. Every matchday includes 2 sessions of 4 games each playing in parallel. The teams will play each other twice, home and away and the top team at the end of the league, after all the 60 games have been played, will be the champion!

The extensive betting offering includes a bet on the winning team of each game, Under/Over, 1X2, Asian handicap, Number of Goals, the final score, cash-outs and more. 'Virtual Football League' provides a very realistic betting experience, combining the excitement of following a high-level European Football League and live football games held every few minutes, with Bonus rounds and half-time bets.

Players can keep track of the league and the teams and enjoy betting 24/7, with the possibility of winning big at various moments throughout the league.

Let the competition begin!

BETS EXPLAINED

We offer a wide range of betting options. The following section aims to help you understand these bets.

Full-time result winner - Moneyline 1X2
This is a straight bet on the outcome of a match, where Team A wins/Team B wins or there is a Draw.

Handicap/Asian Handicap - Full time game winner with a variable spread
This is a bet where each team gets a "virtual" advantage to balance the odds in several directions to create multiple types of bets.

This bet is calculated with the result +/- the handicap number to find the handicap winner.

For example: Team A -1.5 vs Team B + 1.5

If team A wins by one goal or less or loses the game, team B wins the handicap bet.

Under/Over (U/O) / Asian Under/Over Total Goals - Number of goals of the match
Betting on how many goals will be scored in the game's final score:

For example, with U/O 2.5, every game that generates two goals or less will be under. Every game that generates three goals or above is 'over.'

Draw No Bet
Betting on who will win the matchup. If the game ends in a draw, the bet is considered void, and the user receives their stakes back.

Full-time exact result (89%)
Betting on the exact result after 90 minutes (overtime not included).

Double Chance: 1 or X, 2 or X, 1 or 2
Betting on the game outcome with a double chance of winning out of three results from a 1X2 bet.

Both teams will score - Yes/No
Betting on whether both teams will end up scoring goals in the game.

Match total goals
Betting on the exact total number of goals that will be scored during the match:
0, 1, 2, 3, 4, 5+

Team A/B Under/Over
Betting on the number of goals a specific team will score in the next matchup.
For example, Team A - U/O 2.5, Team B - U/O 1.5

Team A/B to score Yes/No
Betting whether a specific team will score in a particular match.

Half-Time result - 1X2
This is a straight bet on the first half outcome: Team A wins/Team B wins/Draw.

Under/Over (U/O) Half-time - Number of goals that will be scored by half-time
Betting on the number of goals both teams will score by half-time.

For example, U/O - 1.5

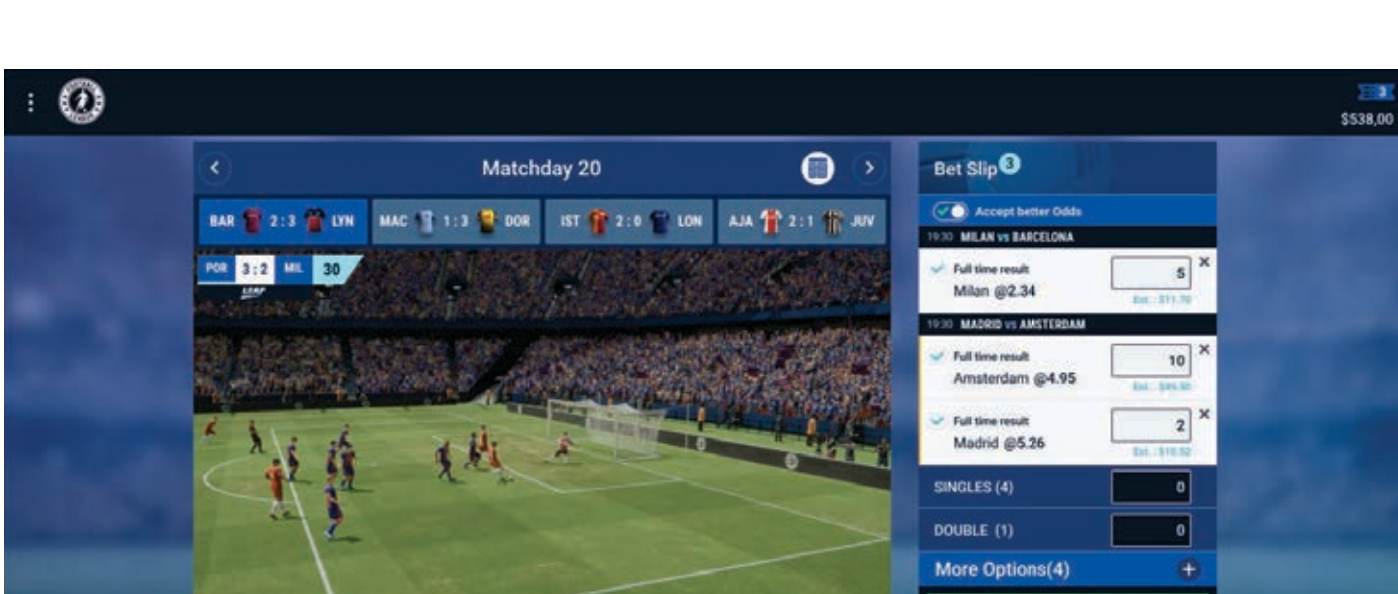

Half with more goals - 1X2
3-Way bet on which half will generate more goals: first half/second half/same number of goals on both.

Half-time/Full-time
The result of the game at Half-time and Full-time (1X2).

DETERMINING RETURN TO PLAYER (RTP)

The customer can see all the possible outcomes and the payout offered for all markets presented in this game.

This clarity allows the player to calculate the exact RTP of the market if they wish
