BASE GAME

The Base Game contains 3 different Mystery symbols.

Regular Mystery Symbol: All landed Mystery symbols contain the same type of symbol.

Octopus Mystery Symbol: Changes selected symbol type into Mystery symbols.

Bomb Mystery Symbol: Acts as regular Mystery symbols but also destroys all none Mystery symbols after wins are added.

If two Bonus symbols are already collected one Mystery symbol can reveal a Bonus symbol.

SPECIAL BET

Enabling special bet raises chances to trigger Free Spins by 82% for an additional 20% cost.

FREE SPINS

Free spins are triggered by collecting 3 Bonus symbols.

Make a choice between 8 Free Spins in Coin Collection, 5 Free Spins in Sticky Mystery or 7 Free Spins in Stacked Wild.

FEATURES

COIN COLLECTION

Collect gold, silver and bronze coins by landing Collection Chests or the Persistent Collection Chest.

Upgrade the coin values and get +1 spins by filling the Coin Meter. The meter will fill one step for each landed coin on the reel. When landing a Persistent Chest 5 extra spins are awarded. If the players are lucky a Coin Rain can occur with 10 coins of the same type dropping in on the reel.

STICKY MYSTERY

Get Sticky Mystery symbols and +1 spins by filling the entire Mystery Meter. The meter will fill one step for each win. Note that in Free Spins, Mystery symbols can't land, or be created by the Octopus Mystery symbol in reel 1, and therefore can only be present on reel 2-6.

STACKED WILDS

Two types of Wilds can land on the reels. Multiplier Wilds have a Multiplier between 2x and 5x on them, while Countdown Wilds always start with a counter of 3. For every generation the countdown Wilds are included in a win, their counter goes down by 1. They are destroyed when the counter is at 1 and they are included in a win. Additionally, if not destroyed, Countdown Wild symbols remain sticky for the next spin.

HOT MODE

Hot Mode can be triggered randomly at the start of any Free Spins mode.

When in Hot Mode, there is an increased chance of winning big.
