## GAME DESCRIPTION

They have a cave troll! Meet the beefy but friendly, gem-collecting cave troll Gronk! This game has a cluster win mechanic, a 6x6 grid with cascading wins and a max win of 7,500x!

## FEATURES

### CHARGED SYMBOLS & EPIC GEM

Symbol wins make that symbol type enter a charged state. All charged symbols are displayed with a glow effect. Charged symbol types are also shown in the “charge bar” display above the grid. Symbols retain their charged state until the end of the current round.

The Epic Gem symbol may drop in on cascades and will activate after the grid has settled, when no more wins or cascades occur. When the Epic Gem activates, all currently charged symbols are converted to the highest paying currently charged symbol.

All charged symbols are then absorbed by the Epic Gem and counted as if they were one winning cluster. The Epic Gem itself counts as 4 symbols, so that it will always be able to create a minimum win of 5 symbols so long as there is at least one charged symbol on the grid. All absorbed symbols and the Epic Gem are removed from the grid and trigger another cascade.

Symbols do not have a charged state during the Gem Hoarder game mode.

### GRONK'S TREASURE

Land 3 or more Gronk's Head scatter symbols at the same time in the base game to trigger this feature, which awards 10 free spins! This feature has the same mechanics as the base game, but with a higher chance of landing Epic Gems.

### GEM HOARDER

Land 3 or more Gem Bag scatter symbols at the same time in the base game to trigger this feature, which awards 5 free spins.

This feature has a global multiplier that progressively increases with the amount of symbols in each winning cluster. Any winning cluster including the special X-Gem symbol is multiplied by the global multiplier! If more than one X-Gem symbol is part of the same winning cluster the global multiplier will be applied to the win once for each X-Gem.

Landing 3 or more Gem Bag symbols at the same time in this feature re-fills the life bar.

### SPECIAL SYMBOLS

The X-Gem symbol counts as a Wild symbol and exists only in the Gem Hoarder game mode.

The Epic Gem does not appear in the Gem Hoarder game mode.
