Game Features

Propaganda Bet

Increase the base bet by 20% to go after the Gulag Spins. Buttons are there to be pressed - expect a more harsh, but less rewarding base game, with a higher chance of triggering Gulag Spins. Also guaranteed that reel 5 is unlocked during Propaganda Bet.

xWays

During the main game, the xWays[®] symbol can appear on reels 1-2, and on reels 5-6 during the Gulag Spins bonus feature. The properties of the xWays symbol range from revealing regular symbols to doubling multiplier values.

xNudge Wild

During both the main game and the Gulag Spins bonus mode, xNudge Wild[®] Symbols can land on reel 3-4. As usual, a stacked Wild symbol will always nudge till fully visible. Each nudge will increase the wild multiplier by 1. When xSplit Wild[®] splits an xNudge Wild, it will add one more Wild to that reel.

xSplit Wilds & Wilds

Regular Wild symbols can appear on all six reels. The xWays symbol multiplier will be increased for each split when xSplit Wilds splits xWays symbols. The features range from multipliers to transforming and expanding symbols.

Gulag Spins

Gulag Spins are triggered when three or more Scatter symbols appear on the screen. A setup spin will be triggered before the bonus mode begins, determining the number of spins and the win multiplier that each of the four highest paying character symbols will earn. Before the Gulag Spins begin, one of the character symbols will be randomly picked and activated during the bonus mode. Landing four Scatter symbols triggers the "Gulag Spins: All Aboard" mode, while landing five initiates the "Gulag Spins: Double Vodka" mode, which doubles all symbol win multipliers.
