## FIGHTERS xXx

"Fighters xXx" is a multiplayer game consisting of three flying planes which can crash anytime. This new aviation game is taking multiplier games to a whole new level. Our planes are breaking the rules of casual multiplier increase games to a whole new level by providing vitalized increase. This new innovation game is popular in crypto casino's where most of player's are looking for simple and hot-tempered gambling experience. Players are watching plains flight and they can choose to cash-out early before first plain crashes or wait till last plain crashes and get a higher return.

The screenshot displays the game interface for FIGHTERS xXx. At the top, it features the game logo and a 'Provably Fairness' indicator. The main area shows a large multiplier '1' in a circular gauge, with three planes (gold, silver, and green) positioned below it. The bottom section contains a betting interface with three bet slots (BET 1, BET 2, BET 3) and a 'BET' button. The interface also includes a 'CATAPULT' toggle (OFF), 'AUTOBET' and 'AUTO CASHOUT' toggles, and a multiplier range from 1/2 to x2. On the right side, there is a user profile section with ID: 11882800 and a balance of 51074767.17 \$, along with a table of live bets and history.

User	Odd	Amount (\$)	Win (\$)
Me	--	150	-----
ID 524895	--	5,000	-----
ID 524895	--	500	-----
ID 524895	--	35	-----
ID 524895	--	500	-----
ID 524895	--	60	-----

## GAME LOGIC

Before the round starts, players are placing bets and after start three plains have the same increasing coefficient. The round ends when all planes are crashed.

- During round odd is increasing but whenever one (or two) of the planes crashes the odd is decreasing by certain percentage.
- If player does not cash out before all planes are crash, he loses.
- To win the game, the user needs to press **CASH OUT** button before the last plane crashes.

## CATAPULT

If the player activate "CATAPULT" betting mode and places bet, then the calculation is done as follows:

- If the player does not cash out from the game when the planes explode, we will give him cash back of his bet amount 50 %.
- If the player makes cash out, we charge 49 % of his win amount.

"Catapult" betting mode description information players can find in game. The mode can be disabled before round starts.

**AUTO BET** - By activating this betting mode, the user should enter bet amount. Once enabled, it will automatically place bets on each round before disabling it.

- Users can activate Auto bet and Auto cash out at the same time.

If the player has activated the auto-bet mode, he can not change the remaining settings.

**AUTO CASH OUT** - By enabling this mode, the player enters the coefficient. Player will win if the entered coefficient is less than or equal to the game's result.

*In one round player can make up to three bets by choosing from the top section how many bets he wants to make. By making the first bet, the program automatically takes you to the next bet section.*
