Fire up your rockets and spin your way through outer space in this 9x9 clusters pays slot. Look out for the constant Solar Wild in the middle of the reels. Solar Flares are randomly triggered and transform 1-4 of the cross lines into the same gemstone symbol. Rockets are sticky wilds and increase their multiplier by 1 after each win, 3 or more rockets triggers freespins. Rockets at random may teleport and swap positions with another symbol to guarantee a win. During the freespins Solar Nova expansion occurs when the Solar Wild symbol contributes to 8 wins during FS. The Solar Nova explosion expands the wild symbol into a 3x3 version of itself.
