Base Cost

When configuring a game, you can set a Base Cost Multiplier, which multiplies the Base Cost (minimum size bet) set by Playtech. This means that the Base Cost to play is set to 10 here by Playtech – you can then set a Base Cost Multiplier to set the stake levels for the game.

This is an innovative feature that allows Playtech to offer games that are more menable to cheap Free Play Bonus promotions.

For example, on this game the Free Play Bonus can be promoted at a cost of € 0.10 (Base Cost Multiplier 1), while still being able have the game available at a default cost of € 1.00 (Base Cost multiplier 10) or even € 2.00 (Base Cost multiplier 20).

There are no fractional betting and rounding concerns.

Examples follow in the table below:

Base Cost Multiplier	Stake (Euros Example)

2	€ 0.20
3	€ 0.30
