It's time to fascinate yourself with this 3-reel, 3-row slot game that has 5 paylines.

Matching symbols, except SCATTER symbols, should be on enabled paylines and adjacent reels, starting from the leftmost. SCATTER symbols count at any position on the reels. For the numbers of SCATTER symbols and combinations on each enabled payline, only the highest win is paid. All prizes are for combinations of a kind. SCATTER wins and line wins are added. All prizes in the payable are shown for the currently selected bet and number of enabled paylines and shown in money or credits depending on the currently selected mode.

The slot also includes the epic Free Games with the Expanding Symbols Feature. When Sun and Moon both appear on the reels, the Moon covers the Sun, creating a new symbol – SOLAR ECLIPSE- and triggers 20 Free Games with a special expanding symbol. Expanded symbols pay for combinations of a kind in adjacent and non-adjacent positions and only on enabled paylines. SOLAR ECLIPSE is Wild and substitutes for all symbols. Appears on reels 1 & 3 and expands vertically to complete special expanding symbols combinations. When the SOLAR ECLIPSE symbols cover one reel, your wins are multiplied x2, when they cover both reels, the X5 multiplier is applied.

SOLAR ECLIPSE symbols appearing simultaneously on reels 1 and 3 trigger 15 more Free Games with the same bets and lines as the initial game.

Also, the players can test their luck in a classic Risk game and double their winnings up to 10 times. The Bonus Pop feature is also available in this game.
