About Red Tiger Jackpots

Like all Red Tiger slots, Forever 7's may be taken with or without Red Tiger jackpots. If a jackpot version of the base game is taken, it must be paired with a jackpot contribution to get the final overall RTP of the game. For example pairing the with-jackpot base game certified at 94.72% RTP and adding a 1% jackpot contribution gives an overall RTP of 95.72%. The RTP of the jackpot contribution itself is 100%.

FEATURES IN THE GAME

CHANGING COLOURS

Each symbol is a different colour, and while the background of the slot scene is the same colour, only the matching symbol will appear on the reels. The background colour will change randomly for one or more spins. When this happens, only the symbol type of the same colour will appear on the reels until another switch occurs. The game always starts with the Blue background on each stake, meaning that initially, only the Blue symbol will appear on the reels until the next colour change. The available colours are: Blue, Purple, Green, Red, Gold, and Cyan.
