ABOUT BUILD YOUR EMPIRE - RACKING UP RICHES

Collect and cluster materials to build your very own empire! Use wood, stone, fires and gems to raise your fortress, and claim the crown to become the king!

Example of Mobile base game with clusters, and Desktop base game respin after clusters formation (top), and clusters and respins in bonus (bottom)

A colorful medieval theme supports this ClusterBucks game, where every **4 adjacent symbols collapse to form one paying symbol**, and where you can experience **our very unique tumbling mechanic - Racking Up Riches!**: When clusters are formed, a **respin** is awarded, keeping the winning clusters and replacing all the other symbols with new symbols that might form further clusters. **Respins continue as long as clusters can be formed**. Same clustered symbols increase their value notably: the more same kind symbols, the more the payout. Symbols can also be double or triple, allowing for quicker cluster's formation.

3 or 4 Bonus symbols award 8 or 30 free games. During free games, **at the start of every spin and before any symbol appears, 1 to 3 adjacent paying symbols (clustered symbols) are placed randomly next to each other**, expanding the chances of making new clusters of the same kind.

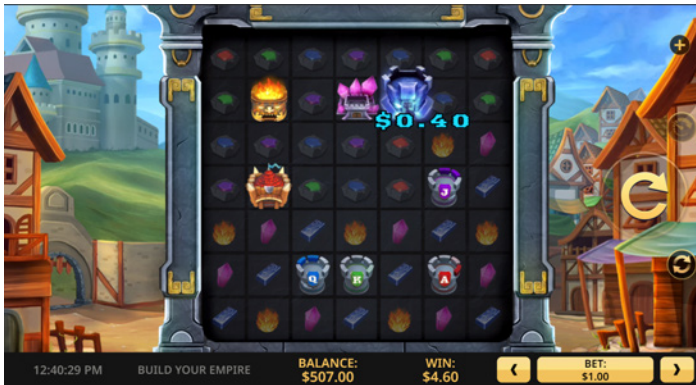

FEATURES

Clusterbucks mechanic

Wins are accomplished when 4 symbols of the same kind are adjacent to each other, collapsing into 1 single paying symbol.

Racking Up Riches

Our unique tumbling mechanic keeps cluster symbols, and replaces the rest through a respin. Respins continue as long as new combinations are formed, always keeping the paying symbols (the more symbols of the same kind, the more their value grow). Payouts happen when no more combinations can be made.

Random Cluster's placement (Bonus)

Before every spin on free games, 1 to 3 clusters of the same kind are placed next to each other. This allows for guaranteed wins and increased payouts on the subsequent same symbols, as their value will be increased quicker.
