Royal Coins 2: Hold and Win

Overview

“Royal Coins 2: Hold and Win” is a highly anticipated and enhanced sequel to one of the most popular Playson classic games.

The game plays out on a 3x3 reels grid and offers 5 lines to win. This follow-up game has the same winning formula with several great enhancements. Precious coins, such as Bonus and Royal Bonus symbols, trigger the Royal Bonus feature within the classic Hold and Win Bonus Game, which grants fantastic payouts. As the Bonus Game has been upgraded, now it features 4 in-game Jackpot. In addition to this, with every coin landing on the reels during the Main Game, there is a chance to trigger an additional Bonus Game by activating the Pile of Gold feature. Still simple and classic, “Royal Coins 2” now brings even more joy and entertainment during the gameplay.

Randomization

Random Number Generator (RNG)

The algorithm used for random number generation (RNG) is Quantis, physical random number generator exploiting an elementary quantum optics process. Quantis has been evaluated and certified by the Swiss Federal Office of Metrology (also known as METAS), the Swiss national organization in charge of measurement science, testing and compliance. It confirmed that the quality of its random output complies with the highest requirements. See the Certificate of Conformity and read the Test Report on <http://www.idquantique.com>. Quantis has also been evaluated by Compliance Testing Laboratory (Bangor, UK), which confirmed that it is "suitably unpredictable and fit for purpose". Download certificate in PDF format

Malfunction Management

If a player attempts to access a game using an invalidated session, (for example, due to inactivity or system restart) an error message is displayed in the game. The player can then log on again and resume game play. The game state is always stored so the player can resume game play exactly where he or she left off.

In case of an HTTP error, network timeout or server error a "technical error" message will be displayed to the player.

Information to the Player

Players have access to game rules from within the game at all times.
