INTRODUCTION

Neko Games is proud to present **Thunderstruck II Video Bingo!**

A new Video Bingo game based on the Thunderstruck II slot, the 2011 Norse mythology masterpiece that took the world by storm with its electrifying features, groundbreaking graphics, and cinematic soundtrack.

With Thunderstruck II Video Bingo, players are invited to revisit the realm of the gods and join Odin, Thor, Loki, and Valkyrie in the hallowed halls of Asgard where a new, unforgettable video bingo adventure awaits.

Thunderstruck II Video Bingo can be played with 1-4 tickets, but it's recommended to play with four tickets enabled to experience the game in all its godly glory. When playing with max tickets, each Extra Ball purchased has a chance to reveal a hidden cache of coins which are drawn into Thor's Hammer – fill the hammer to enter the Great Hall of Jackpots and play for one of four mighty jackpot prizes:

- **Valkyrie Jackpot:** Collect 3 Valkyrie coins to claim a 50x jackpot from the shieldmaiden.
- **Loki Jackpot:** Collect 3 Loki coins to claim a 250x jackpot from the god of mischief.
- **Odin Jackpot:** Collect 3 Odin coins to claim a 2500x jackpot from the wise King of Asgard.
- **Thor Jackpot:** Collect 3 Thor coins to claim the ultimate 10000x jackpot from the god of thunder.

BUSINESS REASONS

Thunderstruck II Video Bingo was created to target a specific player:

- Intermediate and Experienced Video Bingo players in Spain and LATAM that are looking for new and improved online video bingo games in terms of UX and features (particularly higher prizes and jackpots), but don't migrate to slots or other games due to considering them as "hard to understand" or "difficult to win".
- Former online Bingo, Lottery and Video Bingo players that moved to online slots or other games of chance looking for better games in terms of UX, graphics, features, and high prizes, but still have a preference for bingo or lottery mechanics.
- Casino and Slots players, in particular, "Early Life" players in online gaming, mature players that love to discover new game mechanics, and existing Thunderstruck II fans.

Aligned to the above, we identified a gap between the target's entertainment needs and preferences, and the games portfolio available, that every day seems to grow more outdated or less innovative (particularly the current video bingo offer), volatile, complex and/or not localised according to current market needs.

In addition to the highest quality standards defined by Microgaming, and aligned to the target description and game offering mentioned above, "simplicity", "winning feeling" and "reliable" were the key concepts that guided Neko's team in the design and development process of Thunderstruck II VB, that led us to consider:

- Very basic game mechanics, easy to understand by the main target, with a simple and intuitive interface including no more than 2 key buttons to play.
- High prizes and jackpots features, plus a high hit frequency math proposal that generates the feeling of a "winning game" for the target player.
- Game theme, reliable/trusted and well known by the target, that is also aligned with the "winning feeling" concept.

In that sense, we strongly believe that the mix between the Thunderstruck II brand and the jackpot feature from Fu 88 (one of the best math models in the current Neko Games portfolio according to retention and player value rates, but also well known worldwide as a "winning" mechanic, according to comments like "there is an opportunity to win a jackpot on each spin", or "the jackpot mechanics are easy to understand, without needing 5-of-a-kind or any other difficult symbol combinations") is a perfect match to reach game goals described above.
