Game features

GAMBLE FEATURE

Gamble your winnings to multiply your total win. Amount available to wager is the total win upon completion of Bonus Respins. Player may gamble up to 3 times where remaining balance is available. Player may choose to gamble all or half of the total win. The maximum win from the Gamble Feature is 10,000 x total bet. If any combination of gamble options would result in a win higher than 10,000 x total bet they are disabled. If a chosen combination of gamble options would result in a fractional win value (based on player currency), then the wager amount is reduced to one that would generate a whole win value. You may choose to collect your winnings at any time.

BONUS RESPINS

Bonus Respins are triggered when 5 or more SCATTER symbols appear. Bonus Respins are triggered only after all base game Drops are complete. All non-SCATTER symbols are exploded. Remaining symbols drop to the bottom most position on their column. 3 respins are awarded. A new symbol will be dropped onto the top of each column that has less than 5 symbols present. Non-SCATTER symbols that are dropped are immediately removed. SCATTER symbols are held. When a new SCATTER symbol lands, respin count is reset to 3. Upon completion of respins, each SCATTER symbol awards a prize or bonus prize. Platinum bonus prize is 2000 x total bet. Gold bonus prize is 250 x total bet. Silver bonus prize is 50 x total bet. Bronze bonus prize is 10 x total bet. Non-bonus prizes range from 1 to 100 x total bet.

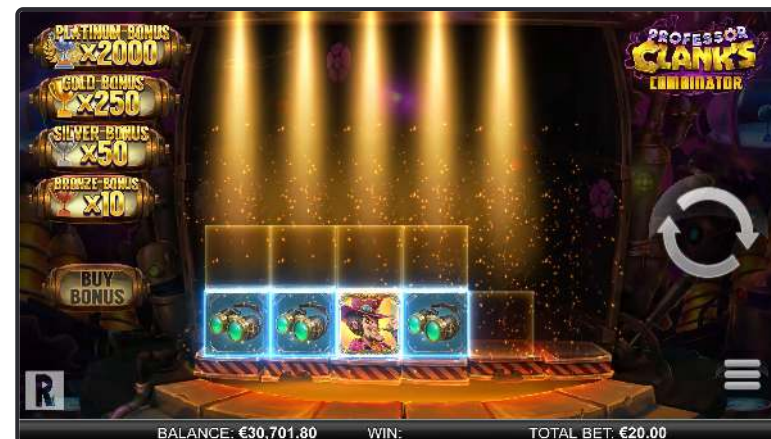

BUY BONUS

The player may opt to buy a Bonus Respins feature. The cost to buy is Base Bet x 1,000. The game is played at Base Bet x 20. A game is played that will always result in 5 or more SCATTER symbols. Available on selected jurisdictions only.

DROPS FEATURE

After Explosions, Morphs and Boosters, a new symbol will be dropped onto the top of each column that has less than 5 symbols present. Any dropped symbol (except SCATTERS) that does not match or substitute for the current paying symbol is exploded. Any dropped symbol that matches or substitutes for the current paying symbol, but does not drop into a paying position as it lands (prior to any latter column symbols being dropped) is exploded. Any symbol that matches or substitutes for the current paying symbol and lands in a paying position, is kept. SCATTER symbols are always kept. If the total symbol win value is higher than that of the previous Drop (or base game prior to any Morphs/Boosters if this is the first drop) then an extra Drop is triggered. New drops cannot be triggered if all columns

contain 5 symbols. Symbol wins are paid once no more Drops are triggered.
