Game Description

Chilli Master® is a 5x3 20-lines games with a Free Spins Bonus round that can re-trigger.

Wins are paid on active win lines from the left-hand reel. Only the highest win per win line is awarded.

This game will use Wild symbols which will double the pay if one or more wilds substitute in a pay.

3, 4 or 5 free spins symbols on the reel trigger the Free Spin bonus with 12, 15, or 20 respectively free spins with the multiplier that applies to all winning combinations. The multiplier starts at 2x, but increases by one for every Wild that appears. Free Spins can be retriggered.

During the Free Spins bonus, each Wild appearing on the reels is collected. All winning combinations are awarded at the currently displayed multiplier. Each collected Wild increases the multiplier by 1 for all subsequent free spins. However, any Wild appearing on the reels on the last free spin is not collected and the multiplier does not increase.

Game Play

Wild

Wild symbols appear on reels 2, 3, 4, and 5, and it is wild for all symbols except scatters.

When one or more Double Wilds substitute in a pay, that pay is doubled.

Free Spins:

3, 4 or 5 free spins symbols (scatters) on the reel award the Free Spins bonus round with 2X Multiplier which increases by one for every Wild that appears.

All wins in the Free Spins are awarded at the currently displayed multiplier. Each collected Wild increases the multiplier by 1 for all subsequent free spins. However, Wilds symbol that appear on the last free spin isn't collected and the multiplier doesn't increase.

Free Spins can be re-triggered.

Free Spins must be started by the player but will play out automatically until the end, or until a Re-Trigger is awarded. The player must re-start the Free Spins after a re-trigger.

General Information

Random Game Play

This game is totally random; the odds of getting any particular outcome are always the same and are not based on any other factors or prior outcomes e.g. stake value, previous wins or losses, time of day, account balance, etc.

Return to Player Percentage

The expected return to player (RTP) reflects the theoretical return over a large number of plays. The RTP is expressed as the percentage returned to players in winnings of the total amount staked, e.g. if £1,000,000 was staked and £960,000 was returned, the RTP of the game for that period of play would be 96%.

The actual RTP during a playing session can vary widely, in either direction, from the theoretical return.
