FEATURES

GENERAL INFORMATION

Money Cart 2 is a 5-column, 4-row slot machine with potential to open 2 new columns in the re-spin feature.

In re-spins, each scatter symbol holds a coin value. At the end of re-spins, the sum of all present values are paid out to the player.

Once a spin has been initiated the bet-level for that round is locked and cannot be changed. Winnings are presented in the user's currency.

The theoretical return to player for this game is 98.00%.

RE-SPIN FEATURE GAME RULES

3 or more bonus symbols are needed to trigger the re-spin.

Bonus symbols can land anywhere on the reels.

Special bonus symbols (gold symbols) contribute to triggering the re-spin.

When the feature is triggered, the bonus symbols that trigger the feature will reveal a value and play their action before the first spin.

All values in the feature will be displayed as a multiplication of bet.

The round always starts with 3 spins and each time a new symbol is landed, the spin count resets.

In the situation that all additional reels have been opened and a symbol is placed in every possible position, the round will end whilst awarding 500 coins.
