Game Features

Unlimited Multiplier Free Games feature

The Unlimited Multiplier Free Games feature is triggered by 3 or more Scatter symbols  landing anywhere on the reels:

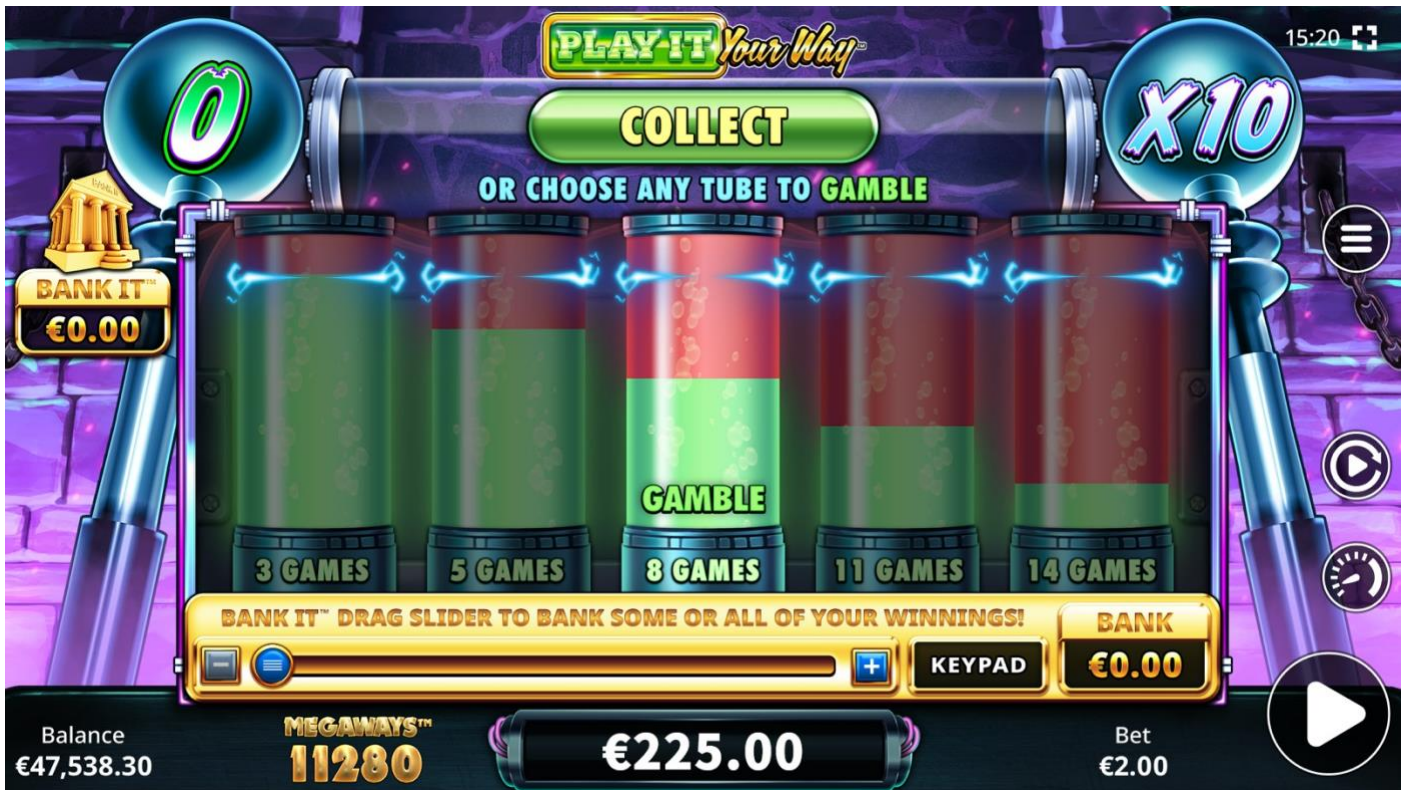

- 3 Scatter symbols - 8 free games;
- 4 Scatter symbols - 12 free games;
- 5 Scatter symbols - 16 free games;
- 6 Scatter symbols - 20 free games.

When the feature is triggered the Unlimited Multiplier is activated at the right upper corner of the reels. The value of the Unlimited Multiplier starts with 1x and increases by 1x after any win and symbol removals during the Extra Chance feature. The Unlimited Multiplier does not reset during the Unlimited Multiplier Free Games feature or any additional free games won during Play It Your Way™ feature.

During free games the Scatter symbol  may appear on reels 2, 3, 4, 5 on the top tube reel. Any 2, 3 or 4 Scatter symbols trigger 2, 4 or 8 additional free games respectively.

At the completion of each set of free games the Play It Your Way™ feature starts. The Play It Your Way™ feature is available up to 9 times during Unlimited Multiplier Free Games feature. Free games won during Play It Your Way™ feature are played at the same coin bet as the game that triggered the Unlimited Multiplier Free Games feature.

Play It Your Way™

Play It Your Way™ feature is triggered at the end of the Unlimited Multiplier Free Games feature.

During Play It Your Way™ feature player has the following choices:

- To collect the win and end feature immediately the player can press the COLLECT button;
- To bank a part of their win the player can activate the Bank It™ feature;
- Gamble the win for one of the 5 available gamble options.

To gamble the win the player chooses the top tube with the number of additional free games and presses the button GAMBLE.

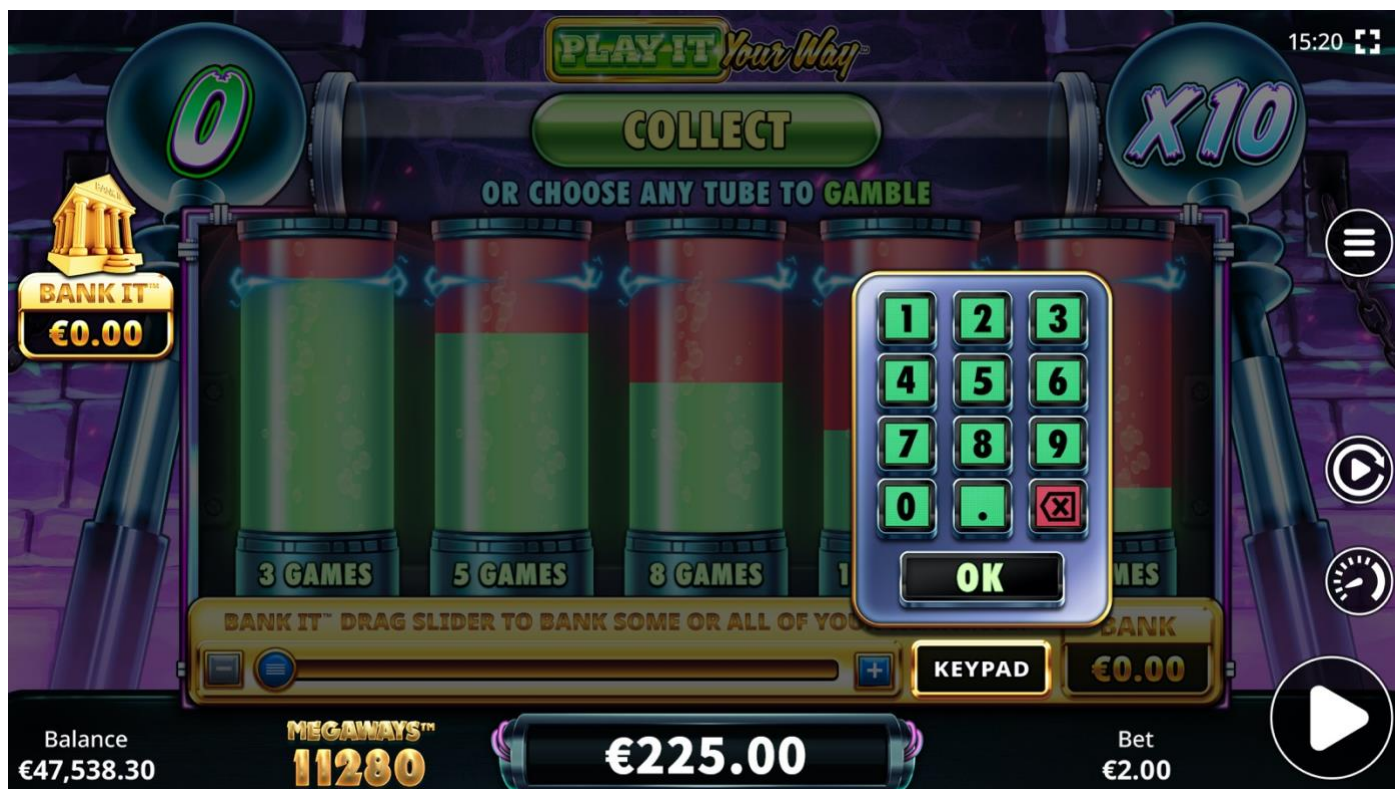

During gamble, landing in green zone retains player's win meter and awards an additional number of free games.

During gamble, landing in red zone forfeits win meter and may award the Consolation Prize.

The Consolation Prize is calculated on the likelihood of reaching 10,000x Bet.

The Play It Your Way™ feature is available up to 9 times during the Unlimited Multiplier Free Games feature.

Bank It™

During Play It Your Way™ the player may use the Bank It™ feature.

Bank It™ feature saves the defined amount of money regardless of the outcome of Play It Your Way™ feature.

To save the part of the money won, the player may bank it and gamble the rest of it.

Below the gamble screen there is a sliding bar. The player can define the sum for banking in 3 ways:

- drag slider to left or right;
- press "+" or "-" at sides of the slider;
- or use a keypad to enter the sum for banking.

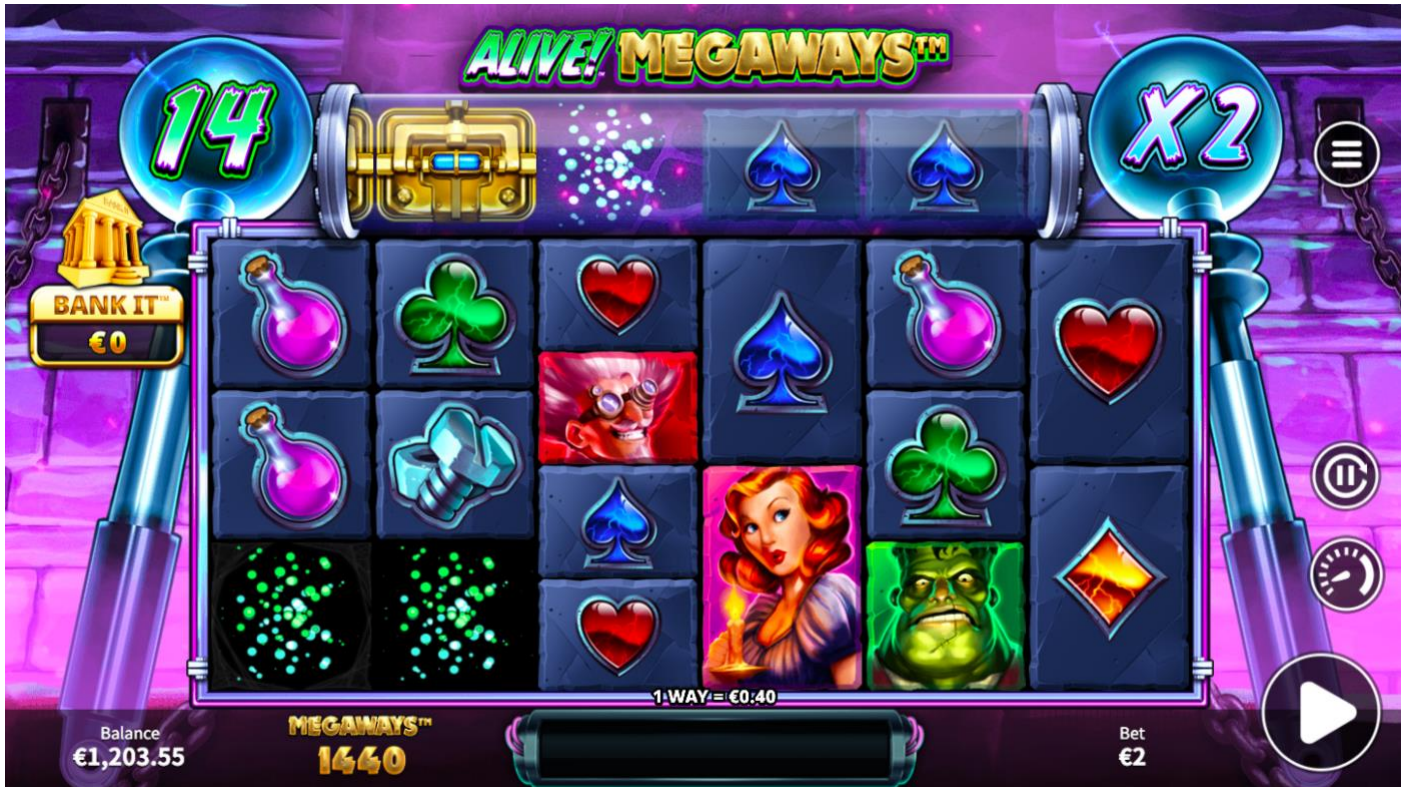

As the player chooses the sum the following parameters change:

- the Win Meter is reduced by the defined amount;
- the Bank It™ button is updated by the defined amount;
- the ratio of green and red zones. The more money the player banks, the larger the red zone is on all tubes;

If the player applies the Bank It™ feature to save the defined sum of money, it is awarded regardless of the outcome of the Play It Your Way™ feature.

Extra Chance

The Extra Chance feature is triggered by any winning event.

All symbols that form any part of a winning combination may be removed from both main reels and top tube reel.

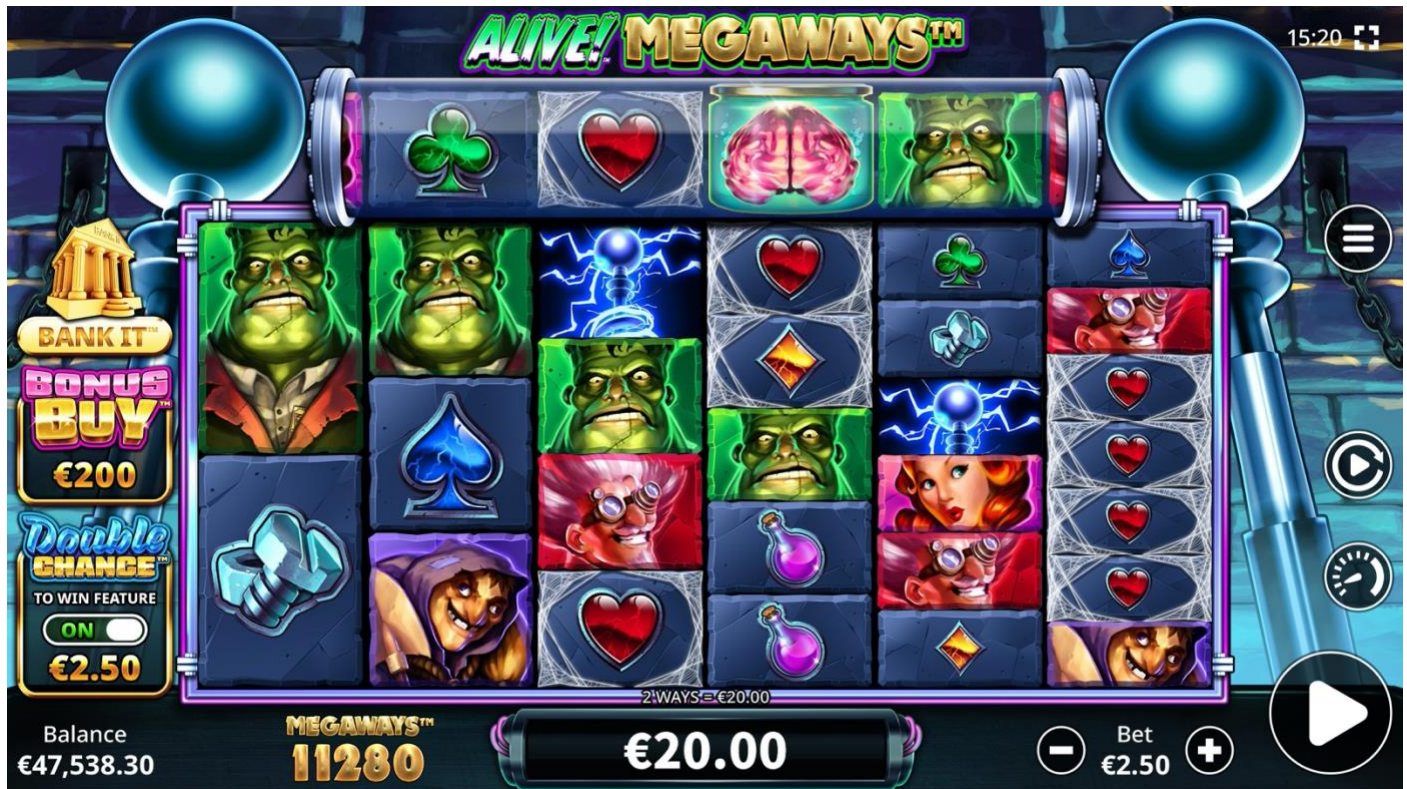

If so remaining symbols in main reels drop down and in top tube reel slide left.

New symbols drop in from above in main reels and slide in from the right in top tube reel.

The Extra Chance feature does not apply to the Scatter symbols.

Double Chance feature

The Double Chance feature doubles the chances of the Unlimited Multiplier Free Games feature for an additional cost.

Double Chance price for the next spin is displayed on the screen. It is a total of the player's current bet and 5 additional credits multiplied by the Coin Bet.

The player can activate the Double Chance feature only in the main game.

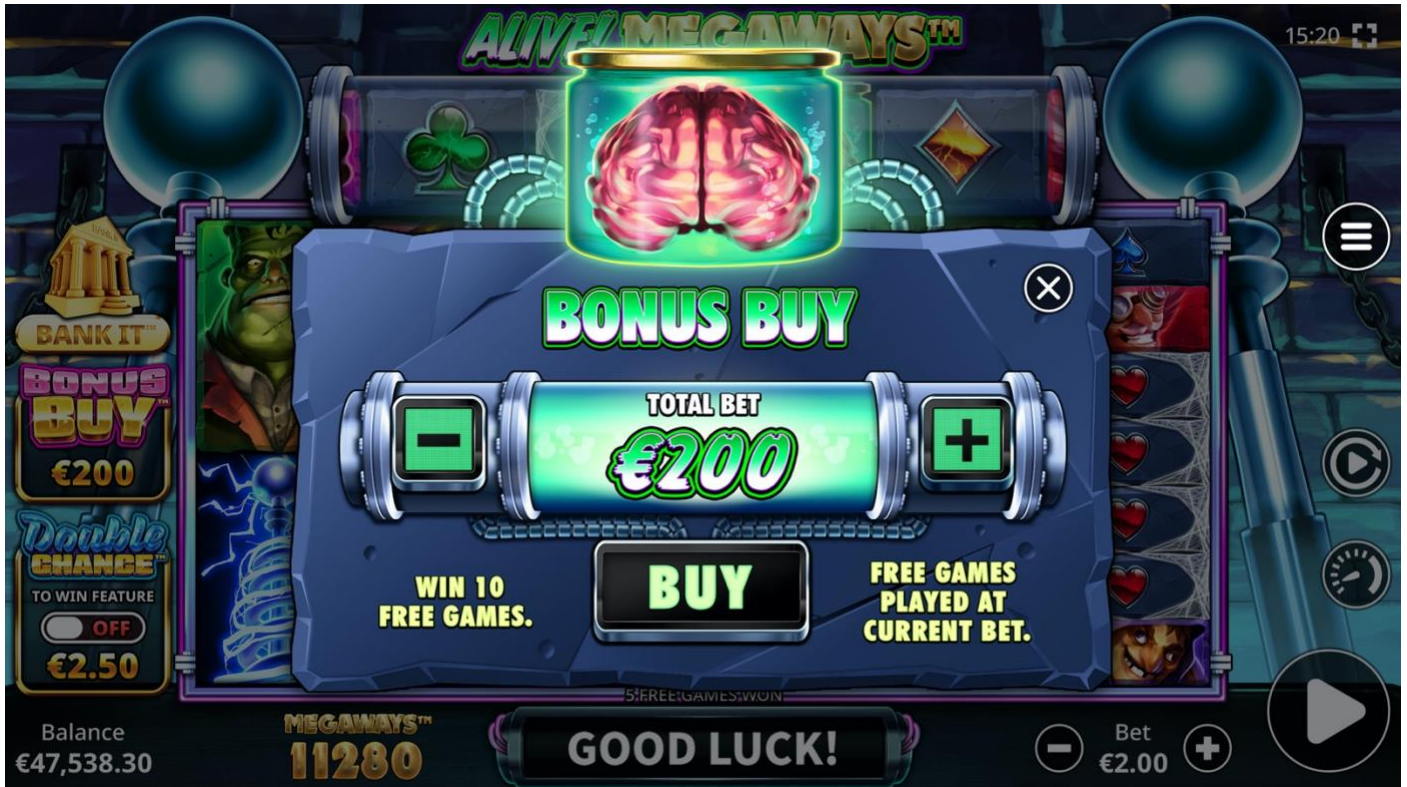

The Double Chance cannot be turned on/off during spins.

The feature is turned off as a default.

The Bonus Buy and the Double Chance feature cannot be activated simultaneously.

Bonus Buy

The Bonus Buy feature is an option for the player to buy 10 free games of the Unlimited Multiplier Free Games feature. It starts feature immediately for the cost of 2,000x Coin Bet or 100x Total Bet.

The player can choose the bet and see the cost of the 10 free games, then press the "BUY" button to pay for the guaranteed 10 free games of the Unlimited Multiplier Free Games feature.

After purchasing the feature, all wins will be calculated the same as during regular spins.

The Bonus Buy feature can be activated only between spins and during the main game.

Completion of the Bonus Buy feature activates 10 free games of the Unlimited Multiplier Free Games feature.

Casino's Exposure

The casino's maximum exposure from a single game round is limited by the win capping mechanism. The win capping defines that the total win from a single game round cannot exceed 500,000 Euro. Should the total win from a game round exceed this number, the total win will be capped.

Top Win information per bet cumulated during simulation of 1,000,000,000 bets:

Regular mode

Highest win	10,000 x Total Bet
10th highest win	10,000 x Total Bet
100th highest win	10,000 x Total Bet

Double Chance

Highest win	8,000 x Total Bet
10th highest win	8,000 x Total Bet
100th highest win	8,000 x Total Bet

Bonus Buy

Highest win	100 x Total Bet
10th highest win	100 x Total Bet
100th highest win	100 x Total Bet

It is highly inadvisable to exceed the pre-set win capping values and game limits.

Game limits of all new games must ALWAYS be reviewed by the casino operator prior to the game's release to players. Failure to set the required maximum limit may result in the casino's exposure to large player wins.

As always, licensees are welcome to contact their Account Manager for further assistance in understanding and configuring game limits and updates of coin values.
