

Red Tiger presents: Dragons Clusterbuster™

Dragons Clusterbuster™ takes you deep inside a world filled with fire-breathing dragons. But never fear, there are all sorts of fantastic bonus features that can help you on your journey. These features are locked at the start of the game and to unlock them, you'll have to hatch the Dragon Egg. The Dragon Egg is a 3x3 Super Tile at the center of the slot. Cluster wins occurring next to the egg destroy a part of it. When the entire egg is destroyed, its corresponding feature is hatched: Blue Hatchling, Green Hatchling, Purple Hatchling, and finally the Fire Egg Hatchling. Each one represents a new level in the game and unlocks a unique set of bonus features. Once unlocked, these features can be randomly triggered in future spins!

A smoldering slots adventure awaits you. Step into the dragons' lair – if you dare!

About Red Tiger Jackpots

Like all Red Tiger slots, Dragons Clusterbuster may be taken with or without Red Tiger jackpots. If a jackpot version of the base game is taken, it must be paired with a jackpot contribution to get the final overall RTP of the game. For example pairing the with-jackpot base game certified at 94.72% RTP and adding a 1% jackpot contribution gives an overall RTP of 95.72%. The RTP of the jackpot contribution itself is 100%

FEATURES IN THE GAME

CHAIN REACTION

Symbols forming wins disappear, making way for new symbols to drop in that may form new wins.

CLUSTERBUSTER™

An inactive cluster of locked tiles is present on the slot. The outer tiles of the inactive cluster unlock when winning clusters are formed adjacent to it. Break all outer tiles to bust open the cluster and reveal its prize.

FEATURES IN THE GAME

DRAGON EGGS

How do you like your Dragon Eggs in the morning? Dragon Eggs are represented by the 3x3 cluster in the middle of the slot. When a cluster win occurs next to the Dragon Egg, the adjacent parts of the egg are destroyed through the Clusterbuster™ mechanic. When all the Egg's parts are destroyed, an exciting feature is unlocked. The unlocked feature is then triggered in the next spin.

The next Egg is then placed in the central cluster, ready to be unlocked in the same way. The first Dragon Egg is blue, the second is green, and the third is purple. After these eggs are hatched, a Fire Egg spawns in the middle and will not be replaced after it hatches. The Fire Egg awards 10 Free Spins every time it is hatched. All unlocked features may trigger randomly in future spins. More than one feature may trigger in the same spin if there is more than one feature unlocked.
