## GAME OVERVIEW: CRYSTAL CAVERNS MEGAWAYS™

### Game description

Step into an icy wonderland full to the brim with glistening icicles and precious gems in Crystal Caverns Megaways™ slot played on a Megaways grid!

Gold Wild symbols land on reels 2, 3, 4, 5, and 6 and can replace all the other symbols, apart from the Scatter. And this is not even the best part! If a Wild hits anywhere on the reels (but on the top row), it will expand, covering the whole reel and helping you create even more shiny combos!

The Tumble Feature is also part of the gameplay, doing what it knows best: to replace the symbols part of a winning line with new ones. However, in this slot, the Tumble Feature comes with an unexpected twist: an increasing multiplier that applies to the total win of the tumble!

As for the Scatter, not only do they pay out up to 100x the total bet, but they can also award up to 20 Free Spins with a multiplier that increases with every tumble. If Crystal Caverns Megaways isn't a multiplier madness, we don't know what is!

## GAME OVERVIEW: CRYSTAL CAVERNS MEGAWAYS™

### Tumbling Feature

The TUMBLE FEATURE means that after every spin, winning combinations are paid and all winning symbols.

The remaining symbols fall to the bottom of the screen and empty positions are replaced with new symbols coming from above.

Top bonus reel tumbles from right to left.

New symbols are of the same size as the initial spin result before tumbles.

Tumbling will continue until no more winning combinations appear as a result of a tumble.

### Win Multiplier

During the base game every tumble will increase the game multiplier by 1x.

This is applied to the current win on that tumble feature.

Multiplier is NOT applied to scatter win.

Multiplier resets to 1 after tumble features have finished.

### Expanding Wild

Wild is not naturally present on reels.

Wild symbols are added on top of the stop positions and then expanded.

Wild can't land on Reel 1.

Wild selection will only happen in case of 0 Scatter present on reels. As soon as at least one scatter is on reels, Wild selection is entirely skipped.

Tumble can each time only land 1 additional Wild to the reels. Wild is placed instead of one of the new symbols that tumble in.

Because the top reel (row on screen) doesn't expand the Wilds. The logic for placement on one of the reels 1 to 5 is a bit different. In case of base game or free spin before tumble, each of the 4 reels has an equal chance of landing the Wild. In case the Wild should land in tumble, the leftmost reel after tumble is selected for landing the Wild.

## GAME OVERVIEW: CRYSTAL CAVERNS MEGAWAYS™

### Free Spins

SCATTER appears on all reels and pays according to the payable x total bet.

Landing 4 or more SCATTER will trigger the Free spins round feature with initial 12 spins for 4 SCATTER and additional 4 spins for each additional scatter on reels. Landing 3 or more SCATTER in Free spins will additional 5 spins.

During the Free spins the increasing multiplier is still active and keeps increasing without resetting on each free spin.

Multiplier resets to 1 after free spins feature has finished.

### Buy Feature

Player may be allowed to buy Free Spins during Base Game.

### Feature enabled:

By default, Buy Feature is enabled.

If feature price is out of total bet limits, then it is not allowed to buy the feature.

If total bet limits are not configured in the bet scale, then buy feature is disabled.

Feature buy will produce a screen with 4, 5 or 6 Scatters (selected by chance)

## TUMBLE FEATURE

The TUMBLE FEATURE means that after every spin, winning combinations are paid and all winning symbols disappear. The remaining symbols fall to the bottom of the screen and the empty positions are replaced with new symbols coming from above. ## INCREASING MULTIPLIER
