

HEART OF FUJI

After securing the safety of the Golden Buffalos, Toro stumbled upon an elderly Japanese man whose dying wish was to return the “Heart of Fuji”, a long-lost artefact, to its rightful home, the secret temple of the jade valley on the slopes of mount Fuji. Toro who is now appointed Shōgun puts on his hakama and heads off to Japan!

Toro Shōgun is a 5 reel, 4 rows honourable slot. It comes with walking wilds, stacked wilds, expanding rows, both ways, respins, a bonus game, and a super bonus game - all packed into a potential 25,000x bet.

X-iter™

X-iter™ allows players to jump straight into the action with 5 different game modes ranging from a 3x bet with more than triple the chance to trigger the bonus game, to a 500x bet Shōgun super bonus.

BOTH WAYS

All winning combinations that connect all reels from left to right trigger the Both Ways feature.

The Toro Goes Wild feature is triggered when both Toro and Matador appear in view. Toro leaves wilds behind as he chases and defeats the Matadors.

SHŌGUN MODE

Reaching 10 rows on all reels triggers the Shōgun mode which is played with only feature, high and mid value symbols.

3 bonus symbols trigger the bonus game. 3 bonus symbols in Shōgun mode trigger the Shōgun Bonus which is played with only feature, high and mid value symbols. Additional bonus symbols landing during a bonus game increase the global bonus multiplier.

Recommended size and ratio for desktop browsers

For the optimal gaming experience, ELK Studios recommend launching the game in 1600x900 resolution. If scaling is required, use 16:9 ratio.

Technology

ELK games uses state of the art web technologies including support for canvas and WebGL. The client detects the capabilities of the device regardless if the player is running on a desktop, tablet or mobile.

The game client will then optimize the gaming experience based on those parameters.

ELK Studios

We build great casino games

Since founded in 2013, ELK Studios has pushed boundaries in the online casino industry. From groundbreaking mathematics to astonishing artwork, ELK takes pride in developing entertaining mobile first content that maximizes the experience for players around the world.

Our games are developed and compiled by our inhouse studio in Sweden, and we use well known test centers such as Trisigma and Gaming Laboratories International to certify them. Once released, all games are operated by partners and operators who hold license in each market.
