CASCADING WINS

Scrooge Megaways features classic cascading symbols on every win as well as the Scrooge Respins bonus, which can be triggered on any spin by landing 5 or more Scatter symbols anywhere in view.

HAUNTINGS OF CHRISTMAS

Randomly in the base game, Scrooge can trigger one of the two modifiers, either adding more Scatter symbols to increase the chance to trigger the bonus, or awarding a Max Megaways spin with 117,649 ways.

SCROOGE RESPINS

Awards 3 initial spins with the number of available spaces fixed as on the triggering spin and only Scatter bet multiplier values in play, with the respins resetting to 3 every time a new Scatter symbol lands.

REEL MULTIPLIERS

Above each reel is a multiplier equal to the number of spaces on that reel - fill an entire reel with Scatters and the multiplier will be activated, immediately multiplying all the values on that reel.
