**Behind every heroic explorer, there is an even more determined heroine!**

Join our courageous female explorer on her daring mission as she climbs the Temple's summit on a quest to rescue her missing husband.

The 5th action-packed instalment of the Tumble Series continues the onward journey from Temple Tumble, deep in the Himalayan wilderness on the outskirts of Nepal. Upon hearing that her husband has transmitted an emergency signal, our adventurer immediately abandons her current expedition and circles the globe to mount the audacious rescue!

Players must navigate the 8x8 grid, clearing all tiles that stand in their way! With a variable amount of symbols in play, wins must be formed to destroy all the surrounding blocks, or land 3 scatters to access the Temple! With the Cluster Pays mechanic, tumble wins are your closest ally. Additional help comes in the form of wilds and power-up blocks that contain magical features. When active, power-up blocks offer extra wilds, Lightning Wins and Fire Transform features that convert into targeted symbols in this highly volatile quest.

Once passage to the Temple is granted, 5 free spins are awarded as aid in the mission's success - All that remains is to gather as much loot as possible while helping this courageous lady save her man!

With a 20,000x potential and love on the line, you could be the answer to the mission's success!

## FEATURES

### Special stone blocks

Some stone blocks contain special features which are activated when there is an adjacent win.

**Lightning Win:** When activated, this special stone block is replaced by a target symbol, which is one of the normal symbols. When it is applied after the following cascade, all normal symbols of the same kind as the target symbol (as well as Wild symbols) create a win, regardless of where on the board they are placed.

**Wild:** The Wild symbol substitutes for all normal symbols

**Fire Transform:** When activated, this special stone block is replaced by a target symbol, which is one of the normal symbols. In the following cascade, 1-2 symbol kinds get transformed into the same kind as the target symbol.

### Free Spins

The Free Spins feature is triggered by landing 3 Scatter symbols or by removing all stone blocks from the board in the Main Game.

Triggering Free Spins awards 5 spins. Clearing the whole board in Free Spins awards 3 additional spins and increases the multiplier by 3 (First removal grants Multiplier x3, next one gives x6, x9 and so on..). An increased multiplier is applied as soon as it is awarded and is persistent throughout Free Spins.

Any Scatter symbol landing during Free Spins awards 1 additional spin.

### Buy Bonus

Buying standard "Free Spins" will cost 100x the reference bet size, and directly starts a Free Spins round with 5 spins granted.

Buying Volatile "Free Spins" will cost 200x the reference bet size, and directly starts a Free Spins round with 5 spins where the multiplier increases twice as fast as normal Free spins (x6, x12, x18 ..).

### Win up to 20,000x your bet!

If the sum of all wins achieved in one round reaches 20,000x bet or higher, the player is awarded 20,000x bet for the whole round.

### Wild

Wild symbol substitutes for all symbols on the reels. A wild can have up to 5 lives, which is decreased when a wild is used in a win.
