Dip your toes into the enchanting, underwater world of God of Seas: Triton's Fortune. Here, beneath the waves, the king of the seas and his daughters preside over untold riches: chests, amphoras, and pearls, all waiting on the seabed for the boldest treasure hunters to bring home.

Among the fallen pillars of a forgotten civilisation, King Triton has patiently waited for players who are willing to test their luck with a little legendary help. Find symbols steeped in Greek myth, and seek Triton's fortune as you aim for direct cash prizes – the biggest of which is the real bounty of the seas: 2,000X times your bet.

The denizens of the deep will also come to your aid. Dolphins flit through the sun-dappled waters, siren strum the lyre, and Triton's mermaid daughters act as wilds, helping treasure hunters find mythical wins.

As well as being a standout slot for its commitment to a unique theme, Gods of Seas also distinguishes itself with its mechanics. Base game spins are enhanced by scatters, wilds, and symbols of King Triton himself. Wilds take the form of Triton's daughters – mermaids of legend – while Triton stands guard over his hoard of riches, allowing players to pull direct cash awards back to the surface when they find enough of him at once.

The keys to Triton's court are two prize wheels, which offer up to 15 free spins and can reduce the number of Triton symbols needed to dredge up the most valuable cash prize.

A wave of pure escapism, and an online slot brimming with features, get ready to submerge yourself in Gods of Seas.

BUSINESS REASONS

Gods of Seas: Triton's Fortune dives headfirst into Greek myth, marrying compelling slot gameplay with the atmosphere and enchantment of an underwater world ruled by King Triton, and a seafloor strewn with ancient riches. With the pillars of a city long-forgotten by surface-dwellers as the backdrop, Gods of Seas offers players the potential to submerge themselves in a unique setting, and to emerge with up to 2,000X their total bet.

In the base game, every spin is a chance to dredge new treasures from the sea floor. As well as standard slot symbols, Gods of Seas is dripping with valuable finds fit for the kind of the waters: amphoras filled with golden coins; treasure chests heaving with jewels, half buried in the sand; giant clams that hold the fabled black pearls; and the lyre, the instrument the sirens used to call sailors to the depths.

Gods of Seas brings these spins to life with a high-sheen presentation. The sun-dappled ocean gleams, dolphins flit through the waves, and every symbol from the common 10 to king Triton himself is painted with lively strokes. Suspense spins ripple with the choral chants of Triton's court, and free spins play out on animated reels that create bubbles with every turn.

As well as being a standout slot for its commitment to a unique theme, Gods of Seas also distinguishes itself with its mechanics. Base game spins are enhanced by scatters, wilds, and symbols of King Triton himself. Wilds take the form of Triton's daughters – mermaids of legend – while Triton stands guard over his hoard of riches, allowing players to pull direct cash awards back to the surface when they find enough of him at once. And in fact, the king can cast his trident over the reels on any base game spin and add between 9 and 15 of his signature symbols to the reels at random, increasing the odds of the player earning a direct cash prize.

Gods of Seas scatter symbol is the gate to its free spins feature, which is awarded when 3 scatter symbols are found on the reels at once. In free spins, players are given the chance to spin two prize wheels, earning up to 15 free spins, and earning up to five levels of Triton's Favour, each of which reduces the number of Triton symbols required to trigger a cash prize.

Playable on almost any device, in any orientation, Gods of Seas is the perfect escapist online slot, and an attractive, captivating addition to any operator's portfolio. Invite your players to come on in – the water's warm.

SUGGESTED OPERATOR PRESS RELEASE

Rule the waves and surface with ancient treasure in Gods of Seas: Triton's Fortune

Independent studio Foxium is inviting players to head beneath the waves and immerse themselves in a mix of myth, legend, and deep gameplay mechanics in Gods of Seas: Triton's Fortune – a brand new slot game that brings the studio's signature blend of play and presentation down to the seabed.

Gods of Seas centres around the Greek god Triton, ruler of the seas. For millennia he has kept watch over the artifacts of the ancient world – now players assume the role of treasure hunters, seeking riches in the ruins, and entreating Triton's favour. Those he deems worthy can dredge up instant wins of 2,000X their total bet from the seabed.

Like all Foxium games, Gods of Seas is an audio-visual feast. From the sun-dappled ocean setting, with the pillars of a submerged temple visible in the background, to the choral chants of Triton's court singers and the chatter of passing dolphins, Gods of Seas is a pure escapist fantasy that stands out from other slots. Some symbols are plucked straight from Ancient Greece – the lyre and amphora – others are bold characters spun from myth, including Triton himself and his mermaid daughter, and treasure troves are everywhere, in the form of chests and pearl-concealing giant clams.

A five reel, three-row game, Gods of Seas keeps every spin interesting with three special symbols: a scatter, a wild, and the king of the seas himself. Triton holds the keys to the direct cash prizes, which are always displayed above the reels; find 6 or more of his symbols and take home prizes that ascend to the 2,000X total bet. His daughter, the mermaid, is wild, standing in for any other non-special symbol, and the scatter symbol transports players to the free spins feature, where they spin two prize wheels to earn up 15 free spins and to reduce the number of Triton symbols needed to earn a cash prize. And in fact, the king can cast his trident over the reels on any base game spin and add between 9 and 15 of his signature symbols to the reels at random, increasing the odds of the player earning a direct cash prize.

"Players today are gravitating towards two things: simple, captivating gameplay, and unique, immersive themes," says Foxium CEO Åke André. "Gods of Seas bottles both of these trends, with an intuitive loop, compelling bonus features that are clearly communicated to the player at all times, and Foxium's legendary level of art, audio, and technical excellence. This is a rich, escapist experience designed for an audience that knows what it wants."
