GAME FEATURES

OVERVIEW

This is a classic 5x4 video slot game, with 40 paylines, wilds, stacked 7 symbols, and re-spins with flying 7's increasing multipliers and a final full house multiplier.

In the main game, every stack of 7's will trigger a re-spin, 7s will fly to the left most position. Each new 7 that appear will award an additional re-spin and again move it to it's leftmost position. For each re-spin the panel multiplier will increase.

If you manage to fill the panel with 7's this will trigger a full house multiplier, where all the wins are multiplied by the panel multiplier and the full house multiplier!

RE-SPINS

A stack of 7's covering an entire reel triggers a re-spin. 7's will fly to their left most position. Any new 7 that appears on the panel will trigger a new re-spin.

PANEL MULTIPLIER

On every re-spin a panel multiplier will increase with 1.

FULL HOUSE MULTIPLIER

When the whole screen is full with 7's a the payer is awarded with an additional new random multiplier between 2 and 5.
