WILD SYMBOL

Wilds are expanding and grow to fill all neighbouring positions on reels to where they land.

The Wild symbol may appear on all reels during the main game.

The Wild symbol substitutes for all symbols except for the Scatter symbol.

SCATTER SYMBOL

The highest paying symbol on the reels. Land five in a winning combination and you'll get a huge 50x bet.

Scatter symbols can appear anywhere on the reels during the main game.

EXPANDING WILDS

Rolling dice tumble onto the reels and expand into neighbouring positions for the chance of bigger wins.

Any wins will then pay according to the newly created win lines.

The Wild symbol may appear on all reels during the main game.

Expanding Wild symbols substitutes for any symbol except for the Scatter symbol.

PREDICTOR FEATURE

Something WICKED could be coming!

When WICKED appears across the screen - great news, a win could be about to roll in.

The Predictor feature is triggered randomly during the main game round, landing Wild symbols that expand before the reels stop spinning.

When all reels stop, wins pay according to the paylines.

During the Predictor feature Wild symbols can reveal or substitute for any symbol except for the Scatter symbol.

GAMBLE FEATURE

Any win may be doubled with the Gamble feature.

The Gamble feature can be selected after any win by clicking on the flashing Red/Black spade icon at the bottom of the screen.

The player then predicts the next card at the top of the screen, Red or Black.

If the player's choice is correct, the Gamble amount is doubled (x2). If their choice is incorrect, the Gamble amount is lost, and the gamble game round is finished.

The Gamble feature can also be automated by clicking on the spade icon, which is white when the game is idle.

After clicking the white spade icon, the Gamble Settings window appears where the player may change the range of wins needed to launch the Gamble feature.

When the win settings are matched the player will enter the Gamble feature game.
