## HUGELY POPULAR, ASIAN-THEMED THREE CARD POKER VARIANT

Introducing Teen Patti, the hugely popular Asian variant of Three Card Poker that originated in India.

Evolution's Teen Patti is a world-class, easy-to-play Poker game streamed live to players from a stunningly beautiful Asian-style studio.

Teen Patti offers all the fun of standard Poker bets in a simple, fun main game with payouts from 1:1 to 5:1. However, two exciting side bets offering payouts of up to 1000:1, no matter what hand the dealer achieves, guarantee even more excitement!

Playing a three-card hand, an unlimited number of players compete against the house in the main game. But with the dealer needing a 'Queen High' to qualify, everyone will feel they have a chance of winning!

Still using their dealt three cards, a player can also win up to 100:1 with the Pair Plus bet. Better still, the 6 Card Bonus bet brings the chance of payouts of up to 1000:1 by combining the player's three cards and the dealer's three cards to form the best five-card Poker hand.

## HOW TO PLAY

### PLACE THE ANTE BET

The player must place the initial Ante bet to take part in the round. The main aim in Teen Patti is for the player to achieve a better three-card Poker hand than the dealer's three-card hand.

### SIDE BETS

The player may also place a bet on one or both of the side bets – the Pair Plus bet and the 6 Card Bonus bet. This gives the chance of bigger payouts of up to 1000:1. The side bets are evaluated separately at the end of each game round, and each bet provides an entirely separate chance to win from the main bet.

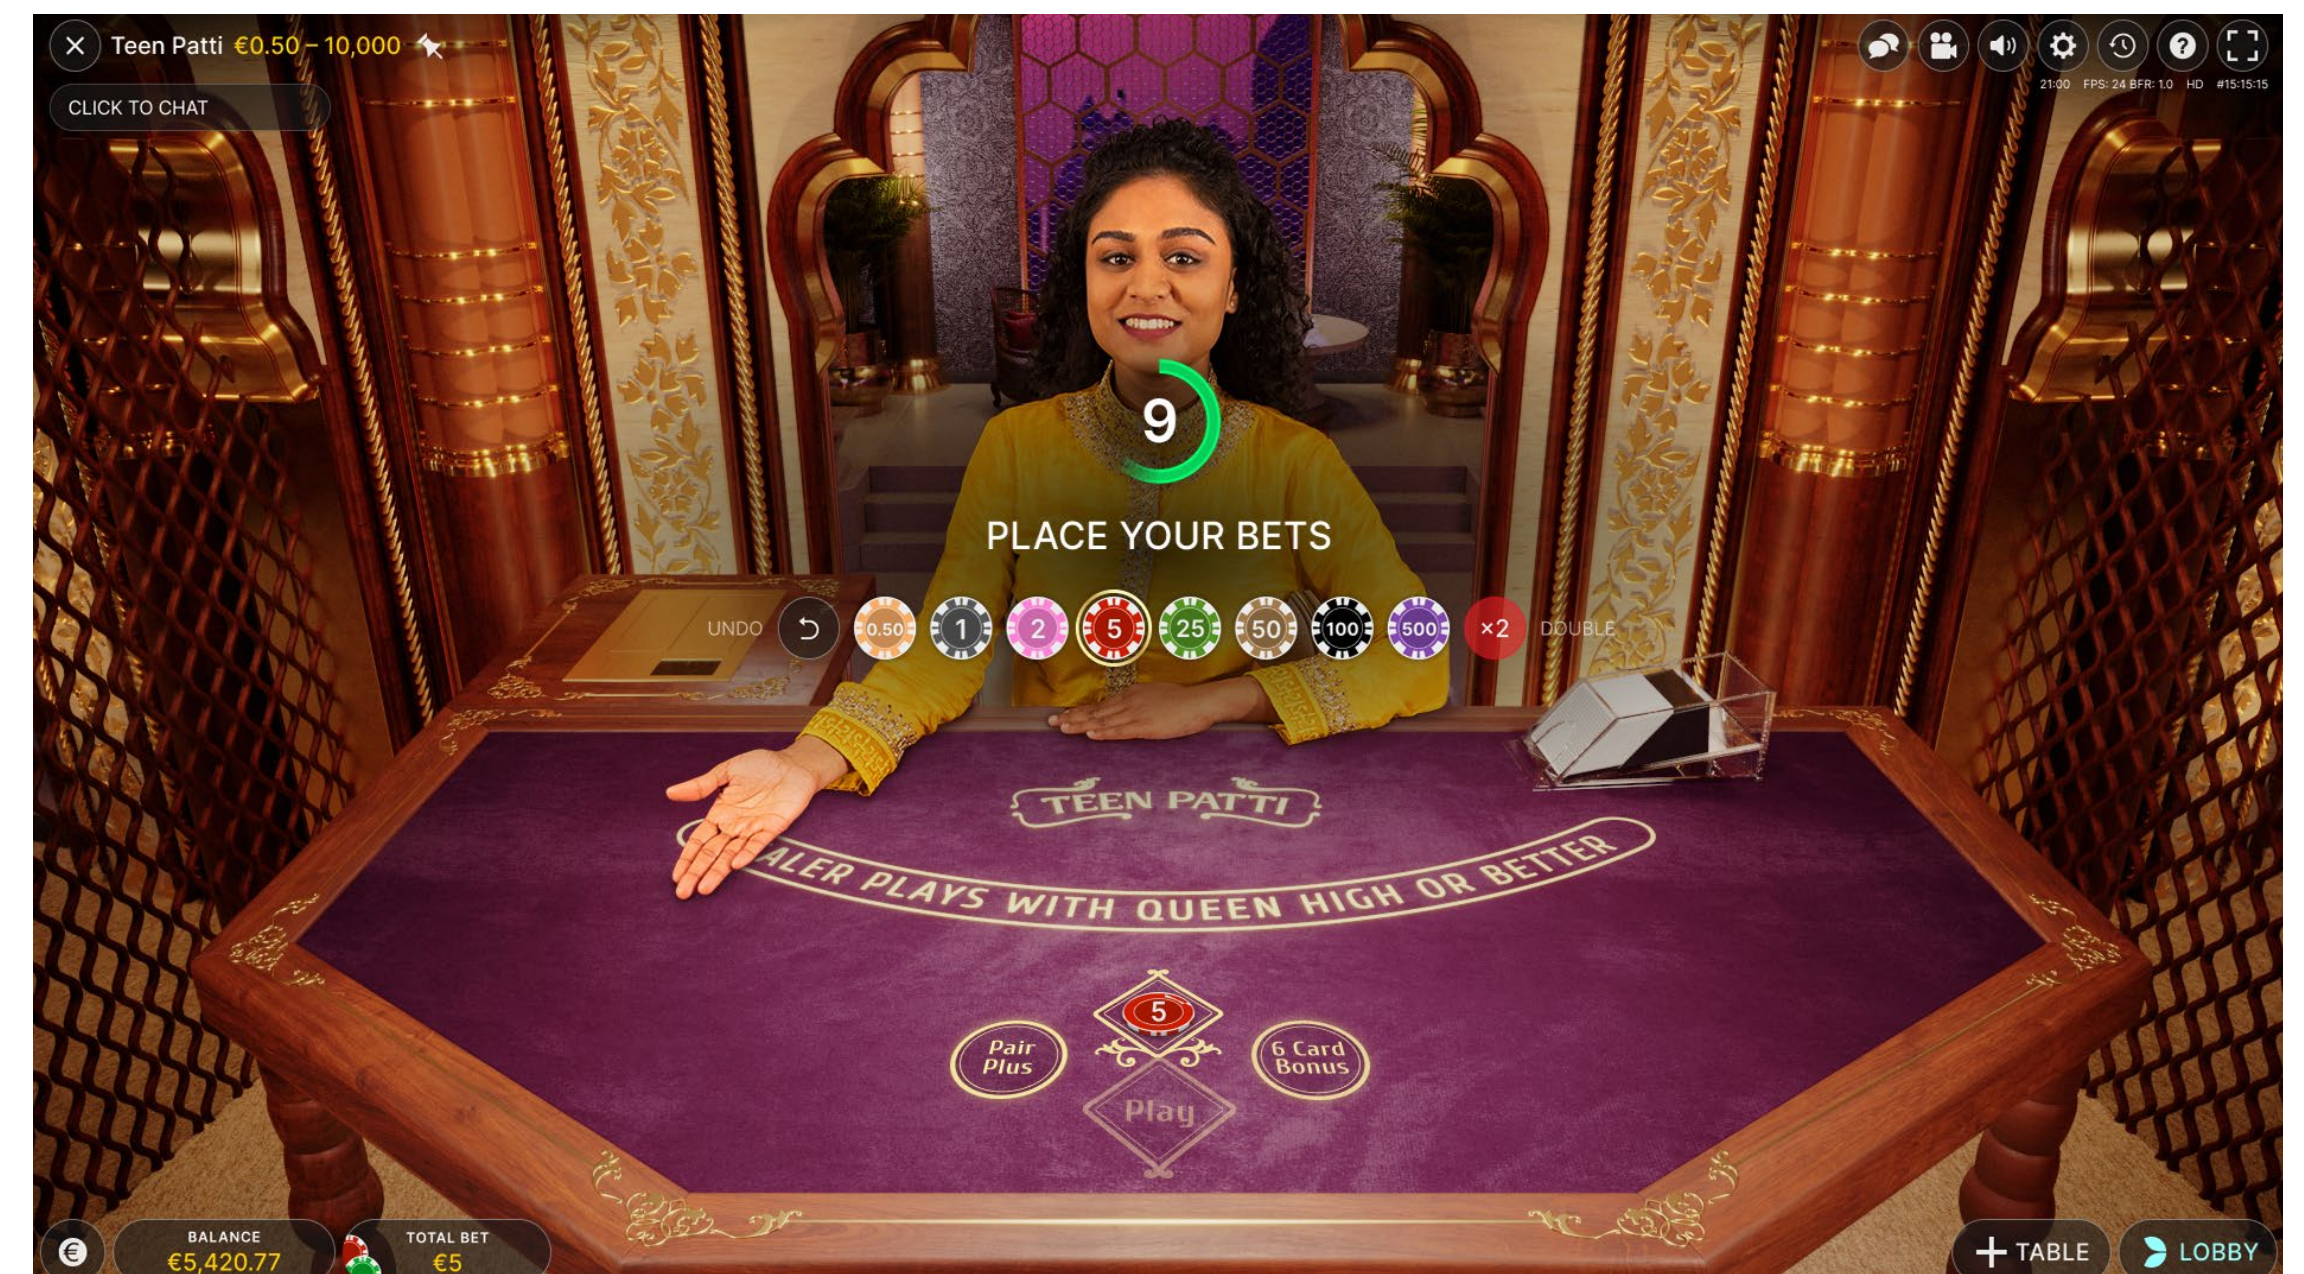

### THE DEALING OF THE CARDS

The player is dealt three cards (face up) and the dealer is dealt three cards (face down).

### PLACE THE PLAY BET OR FOLD

After examining his or her three cards, each player must make a Play bet (equal to their Ante bet) or Fold (i.e. decide not to continue and therefore forfeit their Ante bet).

In the main game, the highest-ranking hand wins and the dealer must have a 'Queen High' or better to qualify.

### GAME OUTCOMES (MAIN GAME)

- If the dealer has less than 'Queen High', the Play bet pushes and the Ante bet is paid 1:1
- If the dealer qualifies to play, the player's hand is compared with the dealer's hand and the higher-ranking Poker hand wins
- If the player has the higher-ranking Poker hand, the Ante and Play bets both pay 1:1
- If the dealer has the higher-ranking Poker hand, the player loses both his or her Ante and Play bets
- If the player and dealer tie (i.e. they have equal-ranking Poker hands), the Ante and Play bets are a push
- If the player gets a Straight or better, the player receives an Ante Bonus, regardless of the value of the dealer's hand. Please note that the player has to place a Play bet to receive the Ante Bonus.

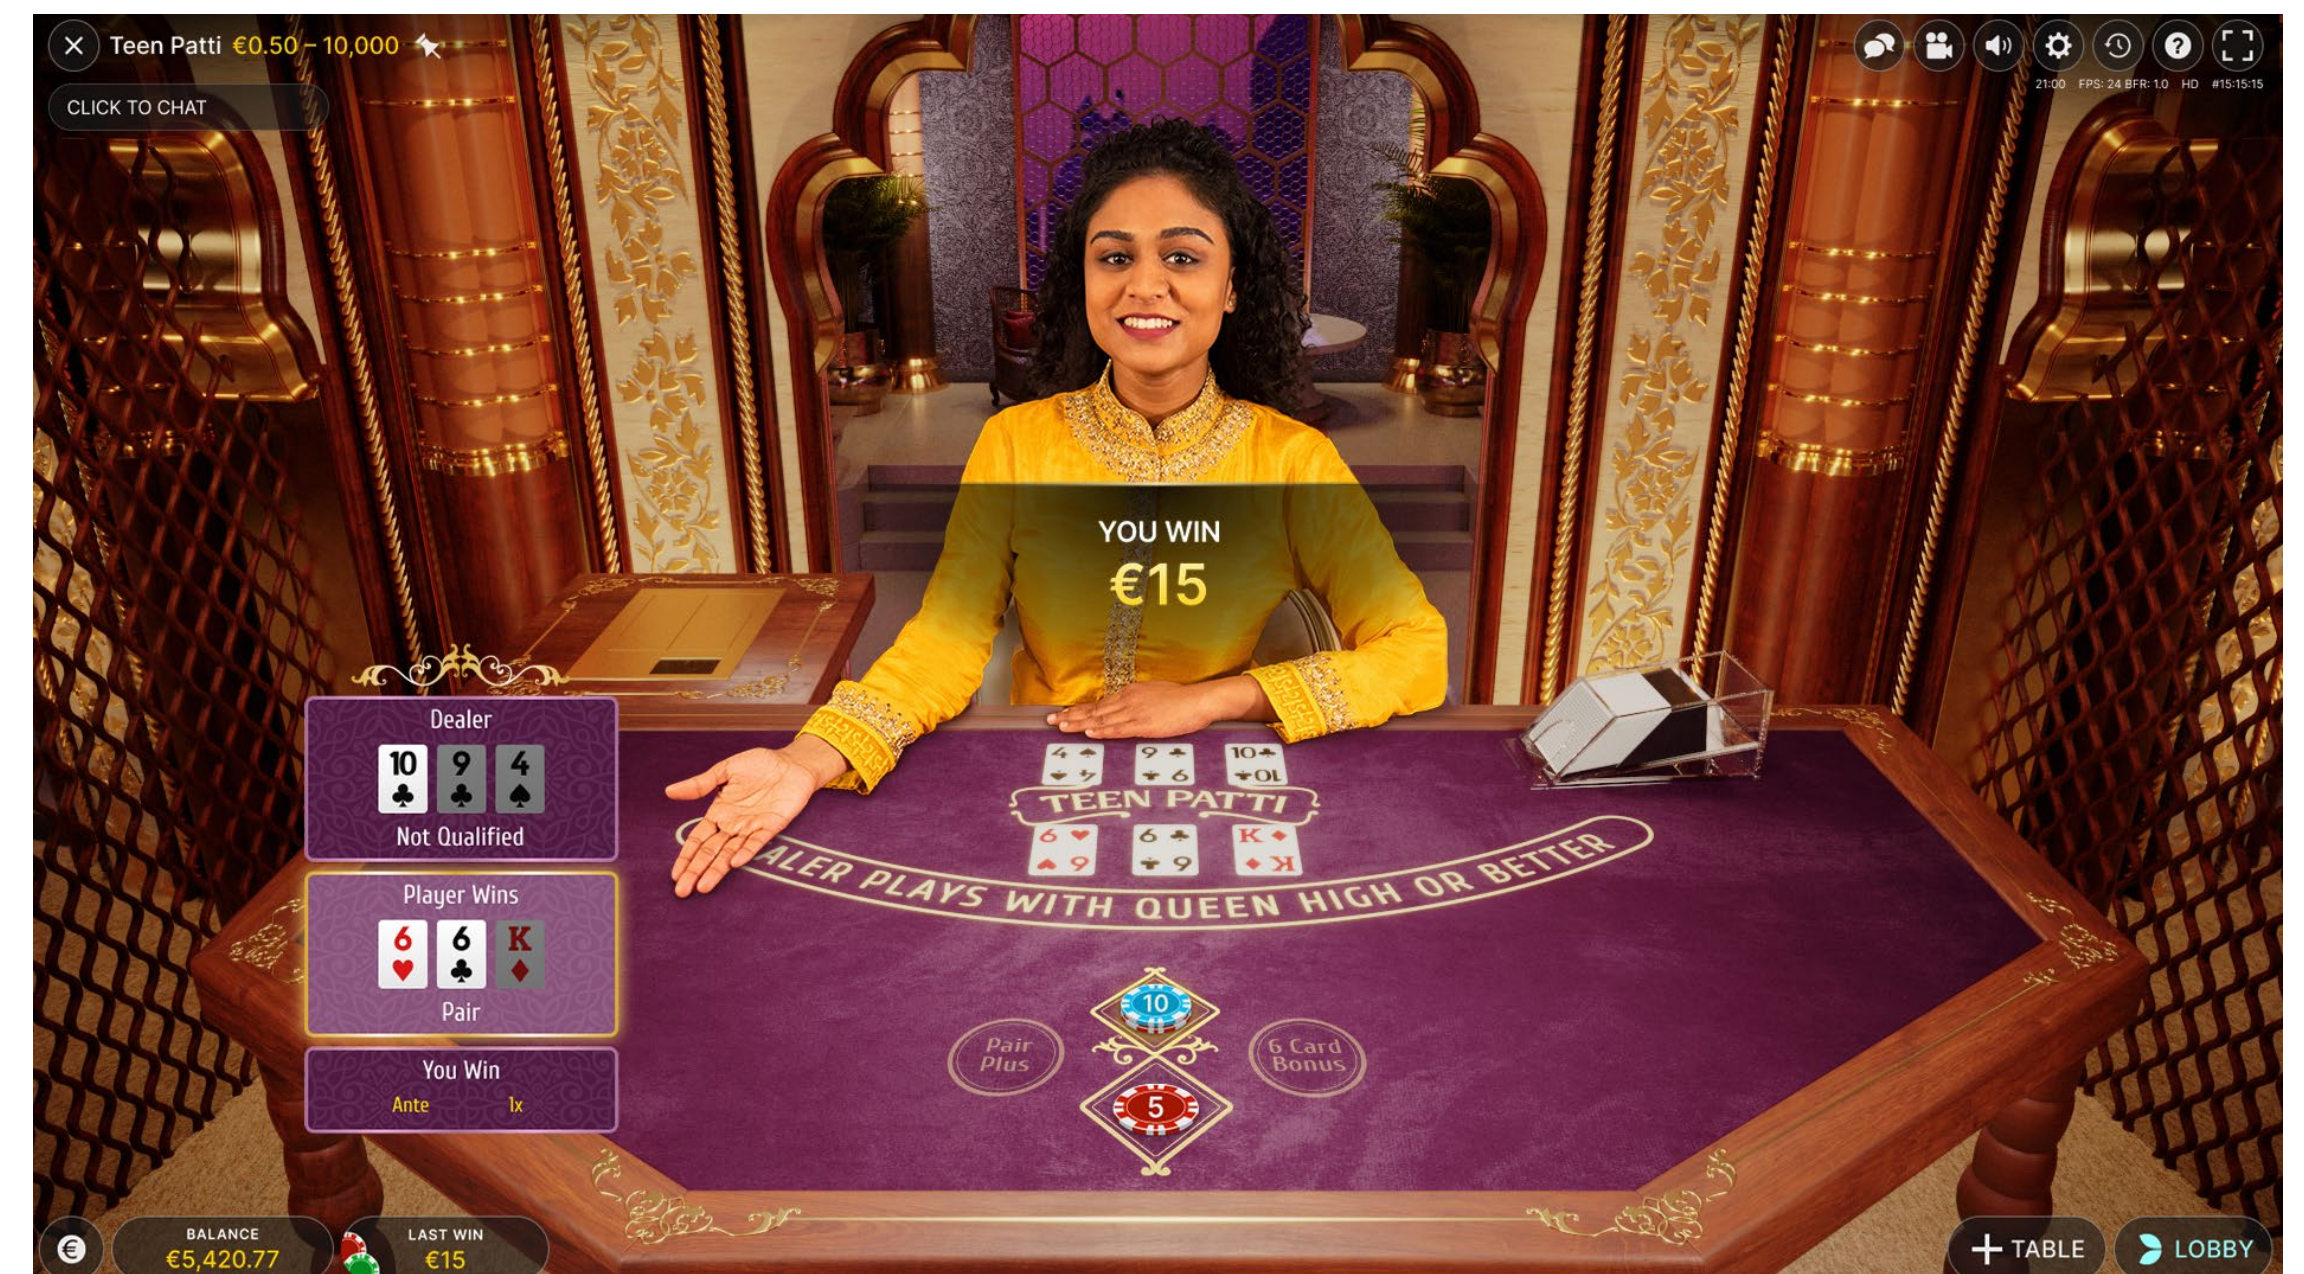

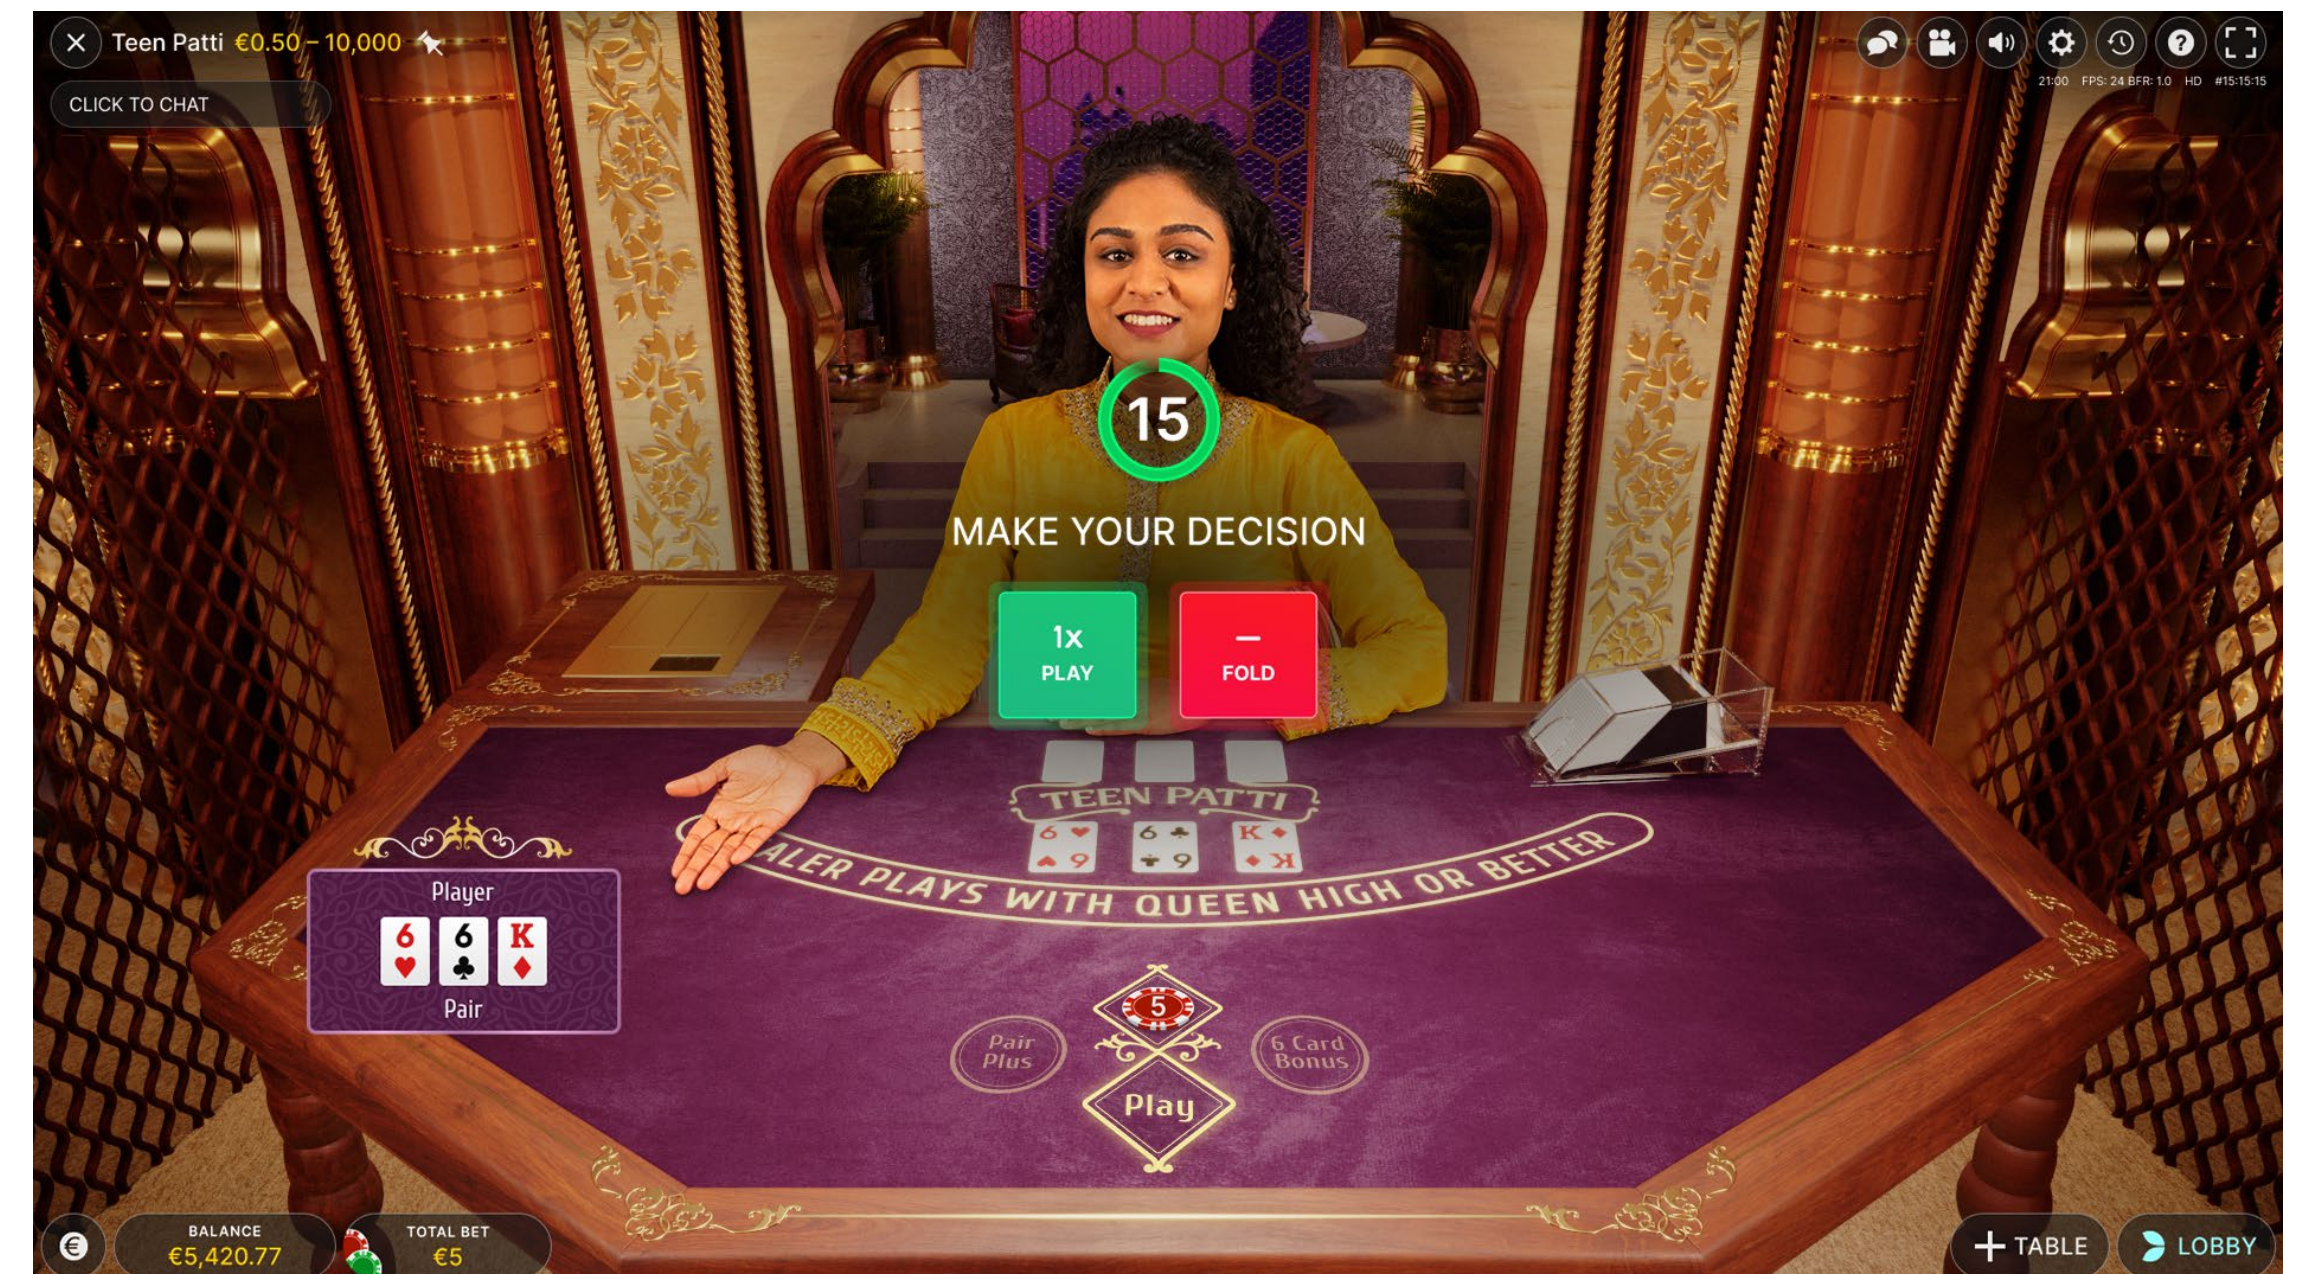

### SIDE BET: PAIR PLUS BET

The player must make a pair or better out of their three dealt cards.

### SIDE BET: 6 CARD BONUS BET

The player must make a winning five-card Poker hand using their three cards and the dealer's three cards. This bet pays on Three of a Kind or better, as shown in the 6 Card Bonus bet payout table.

The side bets are separate to the Ante and Play bets in the main game; they pay entirely based on the value of the player's hand.
