1 MILLION FORTUNES MEGAWAYS™

1 MILLION FORTUNES

This slot brings back the player favourite centre reel that appears during freespins, and can land a maximum of nine symbols rather than Megaways' reel's regular seven symbols. This extra reel affords 1 Million Fortunes Megaways its titular grand total of **1,058,841 winning ways**, providing players plenty of payout opportunities.

During this classic Megaways base game players can enter **freespins** upon triggering four or more tumbles with a win at which point the centre reel appears. 1 Million Fortunes Megaways' freespins includes a reel **lock feature**, where reels lock when they land their maximum number of symbols.

1 Million Fortunes Megaways Eastern theme draws upon the rich cultural history of the Far East, and such visuals continually prove themselves to be popular across the player base.
