

RAGING POPPINS™

The logo for 'Raging Poppins' is centered in the image. The word 'RAGING' is written in large, golden, 3D block letters with intricate tribal patterns on each letter. Below it, the word 'POPPINS' is also in golden 3D block letters, but the 'O' is replaced by a detailed golden rhinoceros head facing forward. To the right of the rhinoceros is a small circular 'TM' trademark symbol. The background is a vibrant, stylized savanna landscape with a sunset sky in shades of purple, orange, and blue, featuring acacia trees and a body of water.

HOW TO CALCULATE WINS WITH “WIN ALL WAYS”

To calculate your total WIN ALL WAYS win, add all your symbol wins together

GAME RULES

To calculate a single symbol win, count the number of subsequent reels that contain the symbol, starting from the left or the right.

If the number of subsequent reels containing the symbol is three or greater counting from the left, find the corresponding win amount in the paytable, otherwise, if the symbol was not present on three subsequent reels counting from the left, count from the right.

If the number of subsequent reels containing the symbol is three or greater counting from the right, find the corresponding win amount in the paytable.

If any of the reels contain more than 1 instance of the winning symbols, the win will be multiplied. Multiply the number of symbols on each of the reels to get the final multiplier. For example, if the first reel contains 2 symbols, the second reel 3 symbols, and the third reel 2 symbols, the paytable value is multiplied in the following manner: $2 \times 3 \times 2 = 12$ (total multiplier).

GAME RULES

5 of a kind wins only pay from one side.

During gameplay, different way wins are added together.
