INTRODUCTION

Stormcraft Studios is proud to present Thunderstruck® Wild Lightning, the highly anticipated sequel to the successful Thunderstruck® II video slot. Having originated the first 2 games in the series, the team was determined to lift this iconic brand to the next level through the introduction of realistic 3D graphics and innovative game mechanics. With the proven success of immersive game experiences like Immortal Romance under their belt, Stormcraft have similarly created a captivating storyline, supported by several original music compositions that will rock your world. A selectable playlist of 5 tracks is available in the base game to create a more customized gaming experience.

Join Thor, the new ascended ruler of Asgard, on an epic quest to retrieve the lost World Stones. This 40-line game journey is filled with collection challenges, feature chases, amazing multipliers, and bonus jackpots. Thor is Wild and when substituting can award a 2x or a 5x multiplier to help boost the win potential. Thor's mighty Hammer is the Scatter and awards entry to the feature selection screen where 5 Free Spin destinations are available to unlock. The electric blue Thunderball symbols scattered across the reels provide clues to the location of the main event, where an impressive jackpot prize of over 15 000x is waiting to be won in the Link&Win™ bonus feature.

The Link&Win™ feature is activated by landing 6 or more Thunderballs anywhere on the 5x4 reel array. These electrifying symbols contain cash values which accumulate and contribute to the wins during the bonus feature. On activation of the Link&Win™ bonus, Thor will expand the reels to a 5x8 array, but these additional four rows will need to be unlocked by collecting enough Thunderballs during the feature. The mechanic of the feature has become a well-known industry standard whereby additional cash value symbols need to be collected in order to reset the spins and continue with the Link&Win™ journey. The locked rows contain larger cash rewards as well as the elusive Jackpot prizes; seeing them land behind the screen emphasizes the win potential of the game and adds huge anticipation to the experience. The ultimate goal of winning the 15 000x Mega Jackpot is achieved by opening all the locked rows and filling all the positions on the reels with Thunderballs.

But wait, there's more. Free Spins is where the Wild Lightning action takes place. Three or more Scatter Hammer symbols teleport players to a selection screen where 5 lost realms from Norse mythology are waiting to be explored. The ice world of Jotunheim is available on initial entry, but all the other worlds will need to be sequentially unlocked. The number of Free Spins awarded, and the size of the Wild Multipliers differs per location, creating an increasingly volatile experience the further along the trail you travel. Free Spins is all about chasing Wilds and activating the Wild Lightning feature which can create multiple Wild Reels that can really boost wins. Add to that the chance to retrigger Free Spins and you have yourself a seriously exciting selection of features.

The Free Spin adventure would not be complete without the feature that has become synonymous with the brand of Thunderstruck®, that being WildStorm. This popular feature is located within the dark world of Svartalfheim and access to this location is only granted by collecting tokens in the base game, every time 2 Scatter Hammers land of the reels. This dangerously volatile realm is not for the faint of heart and offers players the chance of turning up to 5 reels Wild on a single spin!

Thunderstruck® Wild Lightning is a captivating and highly entertaining game that is all about collecting, unlocking, and chasing big wins across a multiverse of exciting bonus features.
