

PLAY'n GO

RELEASE DATE: 29TH JUL.

# ODIN PROTECTOR OF REALMS

If you can spend hours lost in the epic tales of Norse mythology, you're going to love this. We're talking lighting, thunder, and even a little magic. Well, a lot of magic.

Odin, King of Asgard, has been left to defend his kingdom alone, or has he? Here's how you (yes, you) can help protect Asgard.

A cascading grid sees powerful symbols: Thor's Hammer, Frithiof's Angurvadal, Freya's Shield, and Heimdall's Horn alongside a collection of coloured Rune Stones. With 37 symbols in total, match five or more for a winning combination to defeat the attackers of Asgard – these can be next to each other in any direction.

When the swarms refuse to cease, harness Odin's magical powers of Power, Glory, and Wisdom – which will increase the size of your win. \*\*

## POWER

Destruction feature at the end of non-winning game rounds, two symbols are selected and destroyed.

## GLORY

Glory will award random WILDS on a non-winning spin.

## WISDOM

Odin will randomly upgrade the central symbol and all instances of that symbol on the grid before the transformation happens.

## RING POWERS

Bronze, Silver and Gold; all filled with winning combinations and each award a cluster transformation.

Don your armour. You're going into battle.

**MORE. IN ONE GO.™**
