

Hot Fruit Delights returns as a classic fruit-themed 5x3 reel slot, this time with 20 paylines. Features include Stacked Symbols that offer players greater chances to win, and surprising extra perks as Expanding Wilds trigger Respins for amazing wins!

The Wilds can land on any of the three middle reels, and expand to cover the entire three middle reels, then remain sticky for up to three Respins. The reels without Expanding Wilds will respin and present a chance to land more Expanding Sticky Wilds on the 2nd, 3rd, and 4th reels, which will give an additional Respin. The feature ends when no more Wilds appear during the Respin.

This slot includes a double-or-nothing Gamble Feature by which winnings can be gambled up to five (5) times.

Game features

WILDS

Appear on reels 2,3 and 4 only. Substitute for all symbols except Scatters. Wilds expand over the entire reel every time they land on the screen.

Expanding Wilds award a Respin feature.

SCATTERS

Scatter wins are awarded for symbols appearing on any position on the reels.

BUY FEATURE

20 Hot Fruit Delights offers a Buy Feature that you can use to buy Expanding Wilds with Respins. The cost of the Buy Feature is 15x the bet. Press the green 'Activate Buy Feature' button that is located to the left of the reels to activate the feature. Clicking the confirm button deducts the displayed cost from the cash balance and triggers the selected feature.

The Buy Feature is based on a spin with a Wild symbol landing on the second reel, which will also generate a Respin. While the Buy Feature remains activated, every spin will be played at the selected bet size.

The Buy Feature remains active until it is deactivated. To deactivate the feature, select the red 'Deactivate Buy Feature' button to the left of the reels.

GAMBLE FEATURE

Press the Gamble button to gamble any win. Then select the red or black card. The win is doubled on the selection of the correct card. Winnings can be gambled up to 5 times.

The Gamble feature can be enabled/disabled in the Settings menu. If the Gamble feature is enabled, press the Spin button to collect a win and spin again. Alternatively, press the Collect button to only collect a win.

The Gamble feature may be disabled in some jurisdictions.
