## Win Celebrations

There are four (4) tiers of win celebrations depending on how much the player wins. Win types are cumulative, meaning the counter and fanfare will “ramp up” until the highest win type is reached, with each win type having a larger coin fountain effect and more sound effects.

### Big Win

A big win is triggered when the player gets a win of at least 20x their total bet. The counter will show BIG WIN above it and the game will play a sound to draw the attention of the player.

### Super Win

A super win will be triggered when the player gets a win of at least 50x their total bet. The counter will show SUPER WIN above it and the game will play a sound to draw the attention of the player.

## Mega Win

A mega win will be triggered when the player gets a win of at least 75x their total bet. The counter will show MEGA WIN above it and the game will play a sound to draw the attention of the player.

## Epic Win

The epic win will be triggered when the player gets a win of at least 100x their total bet, at which point the coin fountain effect will grow to its largest size, with even more coins appearing on screen. The counter will show EPIC WIN above it and the game will play a sound to draw the attention of the player.

## Business Reasons

### Studio Intro

Founded in 2014 in Montreal, PearFiction Studios specializes in the creation of innovative online casino games that combine unique mathematics, a blend of story, humor, and exciting art, and commitment to responsible gambling.

PearFiction Studios' games draw inspiration from classic land-based casino titles with proven success. The game developer approaches the creation of content with a portrait-first focus and the implementation of fun mechanics to provide players with choice and the best possible experience.

### Game Math Model

Played on not one but two 1024-way reels, 15 Tridents™ a high volatility game features Tridents SwiftHits™, Free Spins and Wilds scatter symbols.

The Trident SwiftHits™ mechanic gives players the chance to win up to 13 instant prizes, depending on the number of symbols that lands on the Base game and/or Free Spins games. In the free spins, the Trident SwiftHits™ are sticky and will pay out at the end of the round, keeping the players on the edge of their seats with excitement.

When the player lands three or more Free Spins symbols, they will receive between 10 and 25 free spins, based on how many free spins symbols the player landed.

As if that weren't enough, 15 Tridents™ also offers high-value symbols that appear at random to create winning combinations. In the game you want to witness the enchanted creature appear on the reels.

### Art Direction

PearFiction studio's take on the realm of Poseidon, God of the oceans and earthquakes, and his wife Amphitrite, features colorful characters and lavish, highly saturated colors.

With lots of animated elements, 15 Tridents™ is sure to catch the eye with its flashy effects, facetious mermaids, and the mysterious creature jealously guarding its treasures in the deep!

### Sound Direction

The majestic musical score welcoming players is an invitation to discover the wonders of this beautiful underwater world, while the epic Free Spin's theme serves as a reminder that even the most beautiful sea can also be terrible and dangerous.

Amid clashing trident sounds and magical bubbles, some more gamey sound effects nod to classic slots.
