CYBER WOLF

Will our cyber wolf lead you to a win of a lifetime?

Endorphina's Cyber Wolf is no ordinary wolf. As technology advances, scientists were able to train the ordinary wolf to become a cyber wolf with his own personality, thoughts, and emotions. With the strength that surpasses ordinary wolves, this cyber wolf may be the remaining key for you to solve and find your luck to experience a win of a lifetime.

This futuristic game has 5 reels and 3 rows with 10 fixed paylines. The WILD wolf's paw print substitutes for all symbols, except for the SCATTER. The WILD appears on reels 2, 3, and 4 in both the main game and Free Games.

3 or more SCATTER symbols trigger 8 Free Games with EXTRA WILD symbols. In the beginning a random symbol is selected and endowed with the WILD capacity – the capacity to substitute for all symbols, except SCATTER. During the feature any symbols, except SCATTER symbols, may get the WILD capacity. Every activated accumulator triggers 1 more Free Game with the same bets and lines as the initial game. Once activated, the accumulator turns off. Free Games are played with the same bets and lines as the initial game and can be won again during the feature.

All prizes are for combinations of a kind. The matching symbols, except SCATTER symbols, should be on paylines and adjacent reels, starting from the leftmost. SCATTER symbols count on any position on the reels. For the numbers of SCATTER symbols and combinations on each payline, only the highest win is paid. SCATTER wins and line wins are added.

All prizes in the paytable are shown for the currently selected bet in money or credits depends on the currently selected mode.

Players can double their winnings up to 10 times during the Classic Risk Game. Bonus Pop is also available in this game.

Will you be able to catch our wolf's interest and persuade him to help you predict the perfect combinations? Dare to spin your luck and meet our cyber wolf to find out!
