GAME RULES

Wins are achieved by getting 3 or more consecutive symbols in a horizontal or vertical line. Symbols can be part of multiple winning combinations.

GAME RULES

Each winning combination without any WILDS may generate a WILD to replace one winning symbol. Winning symbols are removed from the board. Once all wins are scored, the remaining symbols cascade towards the center of the board following the spiral track. New symbols appear to fill the board.

GAME FEATURE: FUSION MODE

At the start of each Base Game spin the board is fully locked. All winning symbols unlock the board underneath them. When the board is fully unlocked Fusion Mode is awarded.

GAME FEATURE: CORE WILD WITH MULTIPLIER

The Core Wild is never removed when part of a winning combination or between Free Spins. Winning combinations containing the Core Wild have their win value multiplied by the Multiplier value. The Multiplier value increases as the Core Wild gets closer to the center of the board, up to a maximum of x50.
