Win Celebrations

There are four (4) tiers of win celebrations depending on how much the player wins. Win types are cumulative, meaning the counter and fanfare will “ramp up” until the highest win type is reached, with each win type having a larger coin fountain effect and more sound effects.

Big Win

A big win is triggered when the player gets a win of at least 25x their total bet. The counter will show BIG WIN above it and the game will play a sound to draw the attention of the player.

Super Win

A super win will be triggered when the player gets a win of at least 50x their total bet. The counter will show SUPER WIN above it and the game will play a sound to draw the attention of the player.

Mega Win

A mega win will be triggered when the player gets a win of at least 75x their total bet. The counter will show MEGA WIN above it and the game will play a sound to draw the attention of the player.

Epic Win

The epic win will be triggered when the player gets a win of at least 100x their total bet, at which point the coin fountain effect will grow to its largest size, with even more coins appearing on screen. The counter will show EPIC WIN above it and the game will play a sound to draw the attention of the player.

Business Reasons

Studio Intro

Founded in 2014 in Montreal, PearFiction Studios specializes in the creation of innovative online casino games that combine unique mathematics, a blend of story, humor, and exciting art, and commitment to responsible gambling.

PearFiction Studios' games draw inspiration from classic land-based casino titles with proven success. The game developer approaches the creation of content with a portrait-first focus and the implementation of fun mechanics to provide players with choice and the best possible experience.

Game Math Model

The fun never runs out in this 5x4, 1024 way game with wilds and free spin scatter symbols.

Land three scatters to spin the free spins wheel and win 10-30 spins - once landed, these spins can be gambled for a chance to increase the number of free spins. If the gamble is won they can be gambled again, and if it's lost an instant prize is awarded instead. The free spins game has a greater chance to trigger LockNWin™ than the base game!

The base game has nearly as much action as the free spins game with the LockNWin™ feature triggering every few spins - land six or more bonus coins symbols to start three respins for a chance to land even more coins or a jackpot - the respins reset every time a coin lands! To make LockNWin™ even more exciting, both coins and jackpots can be multiplied when some special symbols land.

Even non-winning bonus symbols help you win in Squealin' Riches™ as every one that lands increases the bonus bar's progress. Fill it to spin the bonus wheel for a chance to win an instant prize, jackpots, or free spins!

Art Direction

The art was inspired by classic slots but with a PearFiction touch. The piggy is comical and has a fun personality that's fully animated on feature transition and big win screens. The game is extremely bright and colourful, very eye-catching.

Sound Direction

Sounds are bright, crisp, and have a joyful, comic feel to them. The music is jaunty and pleasant. Sound effects have a classic slot/video game style that evokes a playful, gamey style.
