Game Features

Berserker Bonus

The **Berserker Bonus** feature is triggered by landing a **Bonus** symbol on reels 1 and 3 simultaneously.

2 symbols showing an axe and the words 'PICK ME' on them are revealed.

The player selects an axe, revealing either a cash prize or **+1 IN NEXT FREE GAMES**. There is also a chance that both symbols will show cash prizes.

If the symbol shows **+1 IN NEXT FREE GAMES**, the **Free Games** win multiplier increases by +1.

Note: If the selected symbol reveals **+1 IN NEXT FREE GAMES**, the same symbol will also reveal cash prize symbol after the win multiplier increases, awarding a cash win.

Note: Cash prize symbols can appear in the main game on reels 1 and 3 and will award a cash prize when they land.

The higher the player's win multiplier, the more cash prize symbols will appear in the main game.

Note: The **Free Games** win multiplier caps at $\times 5$ and only applies to the next **Free Games** feature triggered.

If the win multiplier is $\times 5$, **FREE GAMES TRIGGERED** will appear instead of **+1 IN NEXT FREE GAMES**. In this case, the **Free Games** feature will immediately be triggered with the $\times 5$ win multiplier.

Free Games

The **Free Games** feature is triggered by landing a **BONUS** symbol on reels 1, 3, and 5 simultaneously.

On the following screen, 1 of the top 4 symbols has to be selected by the player to reveal the number of **Free Games** won.

Another 1 of the bottom 4 symbols has to be selected by the player to reveal a symbol to be super stacked on the reels.

All wins in **Free Games** are multiplied by the win multiplier.

Note: If the win multiplier is $\times 2$ or greater when **Free Games** end, **BONUS** symbols are added to reels 1, 3 and 5 making it more likely to trigger another feature.

Note: After all **Free games** are played, the win multiplier resets to $\times 1$.

Empire Treasures™ Jackpot

The **Empire Treasures™ Jackpot** is a multi-level progressive jackpot feature. It is accumulated from all players' bets in all games which feature the **Empire Treasures™ Jackpot**, among all online casinos that offer these games.

There are 4 jackpots that can be won: **Mini**, **Minor**, **Major** and **Grand**.

The different jackpots hold different prize amounts.

The Jackpot for this game works like this:

Seed (how much money the jackpot starts out with):	<p>Mini €100</p> <p>Minor €1,000</p> <p>Major €10,000</p> <p>Grand €200,000</p>
Win condition (the result you have to get to win the jackpot):	The jackpot is triggered randomly on any spin in a slot game featuring the Empire Treasures™ Jackpot .
Win requirements (what you need to do to be eligible for the jackpot):	Play a slot game with the Empire Treasures™ Jackpot .

The result the player has to get to win the Jackpot:

- Jackpot game is triggered randomly on any spin in any of the linked games.
- Entering the Jackpot game guarantees a win of one of the four jackpots.

The **Empire Treasures™** Jackpot game has a reaction timer (30 seconds). Random symbols will be picked automatically if the player does not select symbols within the time limit. Jackpot winnings are added to the main game winnings (if any) and displayed in the win pop-up together with any other winnings.

Please note:

The seed and jackpot values are in EUR in the progressive network and their value in your local currency is dependent on the currency exchange rate specified by the casino.

The mechanics of the **Empire Treasures™ Jackpot** prohibit simultaneous jackpot winnings.

Imperfections in the internet connectivity may cause you to experience delays in jackpot messages or updates, but they do not affect actual jackpot wins.
