

## Welcome to Reef Raider™ video slot

Plunge into the colorful world of the Reef Raider™ and find out what mischief he's up to beneath the ocean waves. Feature-packed and bursting with fun, Reef Raider™ is a 7x7 cluster pays mechanic slot. Choose your stake and spin the reels to play the game. Five or more of the same symbol that are adjacent to each other award a cluster win. Cluster wins trigger the Avalanche™ feature. Seashells represent lower-paying symbols, while jewels are the higher-paying symbols.

The reels are encircled by a 'Treasure Trail' consisting of 15 'meter bars'. These bars are initially uncharged, but each time a Clam Wild is removed from the play area because of a cluster win, 1 bar of the Treasure Trail meter is charged. Features lie at each of the four points along the Treasure Trail and are activated when the Reef Raider arrives at that point along the track. For example, the Anchor Drop feature lies at the first point of the track. Three charged meter bars bring the Reef Raider to this point. 6 charged bars bring the Reef Raider™ to the Random Wilds Feature – and so on and so forth!

## FEATURES IN THE GAME

### TREASURE TRAIL

The Treasure Trail surrounds the reels and consists of 15 meter bars. Each time a Clam Wild is removed from play because of a cluster win, 1 meter bar is charged. Charging meter bars activates certain features:

- 3 bars trigger the Anchor Drop Feature
- 6 bars trigger the Random Wilds Feature
- 9 bars trigger the Mystery Chest Feature
- 12 bars trigger the Cannon Blast Feature
- 15 bars trigger Free Spins.

The meter bars can also be filled during Free Spins.

### CLAM WILDS

If a winning cluster containing at least 3 medium win or low win symbols occurs, a Clam Wild symbol appears in place of one of the removed medium-win or low-win symbols before the Avalanche™, giving you a better chance to win once the new symbols tumble into place.

## FEATURES IN THE GAME

### ANCHOR DROP

3 charged bars award the Anchor Drop feature. When this feature is activated in the main game or in Free Spins, 1 to 3 different low win symbols are randomly chosen and all of the matching symbols are removed from the play area.

### RANDOM WILDS

6 charged bars award the Random Wilds feature. When the Random Wilds feature is activated, 4 to 8 Wild Coin symbols are randomly placed on the reels.

## FEATURES IN THE GAME

### MYSTERY CHEST

9 charged bars award the Mystery Chest feature. When the Mystery Chest feature is activated in the main game or in Free Spins, 2 to 16 medium win and low win symbols on the reels are replaced with Mystery symbols. After the feature is activated, all Mystery symbols are revealed, and potential cluster wins are evaluated.

### CANNON BLAST

12 charged bars award the Cannon Blast feature. When this feature is activated, a random symbol on the reels is removed from the play area along with all the medium win and low win symbols in the same row and column as the chosen symbol. Clam Wild symbols, Wild Coin symbols, and Multiplier symbols cannot be removed in the Cannon Blast feature.

## FEATURES IN THE GAME

### FREE SPINS

In the main game, 15 or more charged Treasure Trail meter bars award Free Spins, and every extra 3 charged bars award 2 additional Free Spins. In Free Spins, 15 charged bars award 1 additional Free Spin, and every extra 3 charged bars award 1 more additional Free Spin. Free Spins end when the Free Spins counter reaches 0.

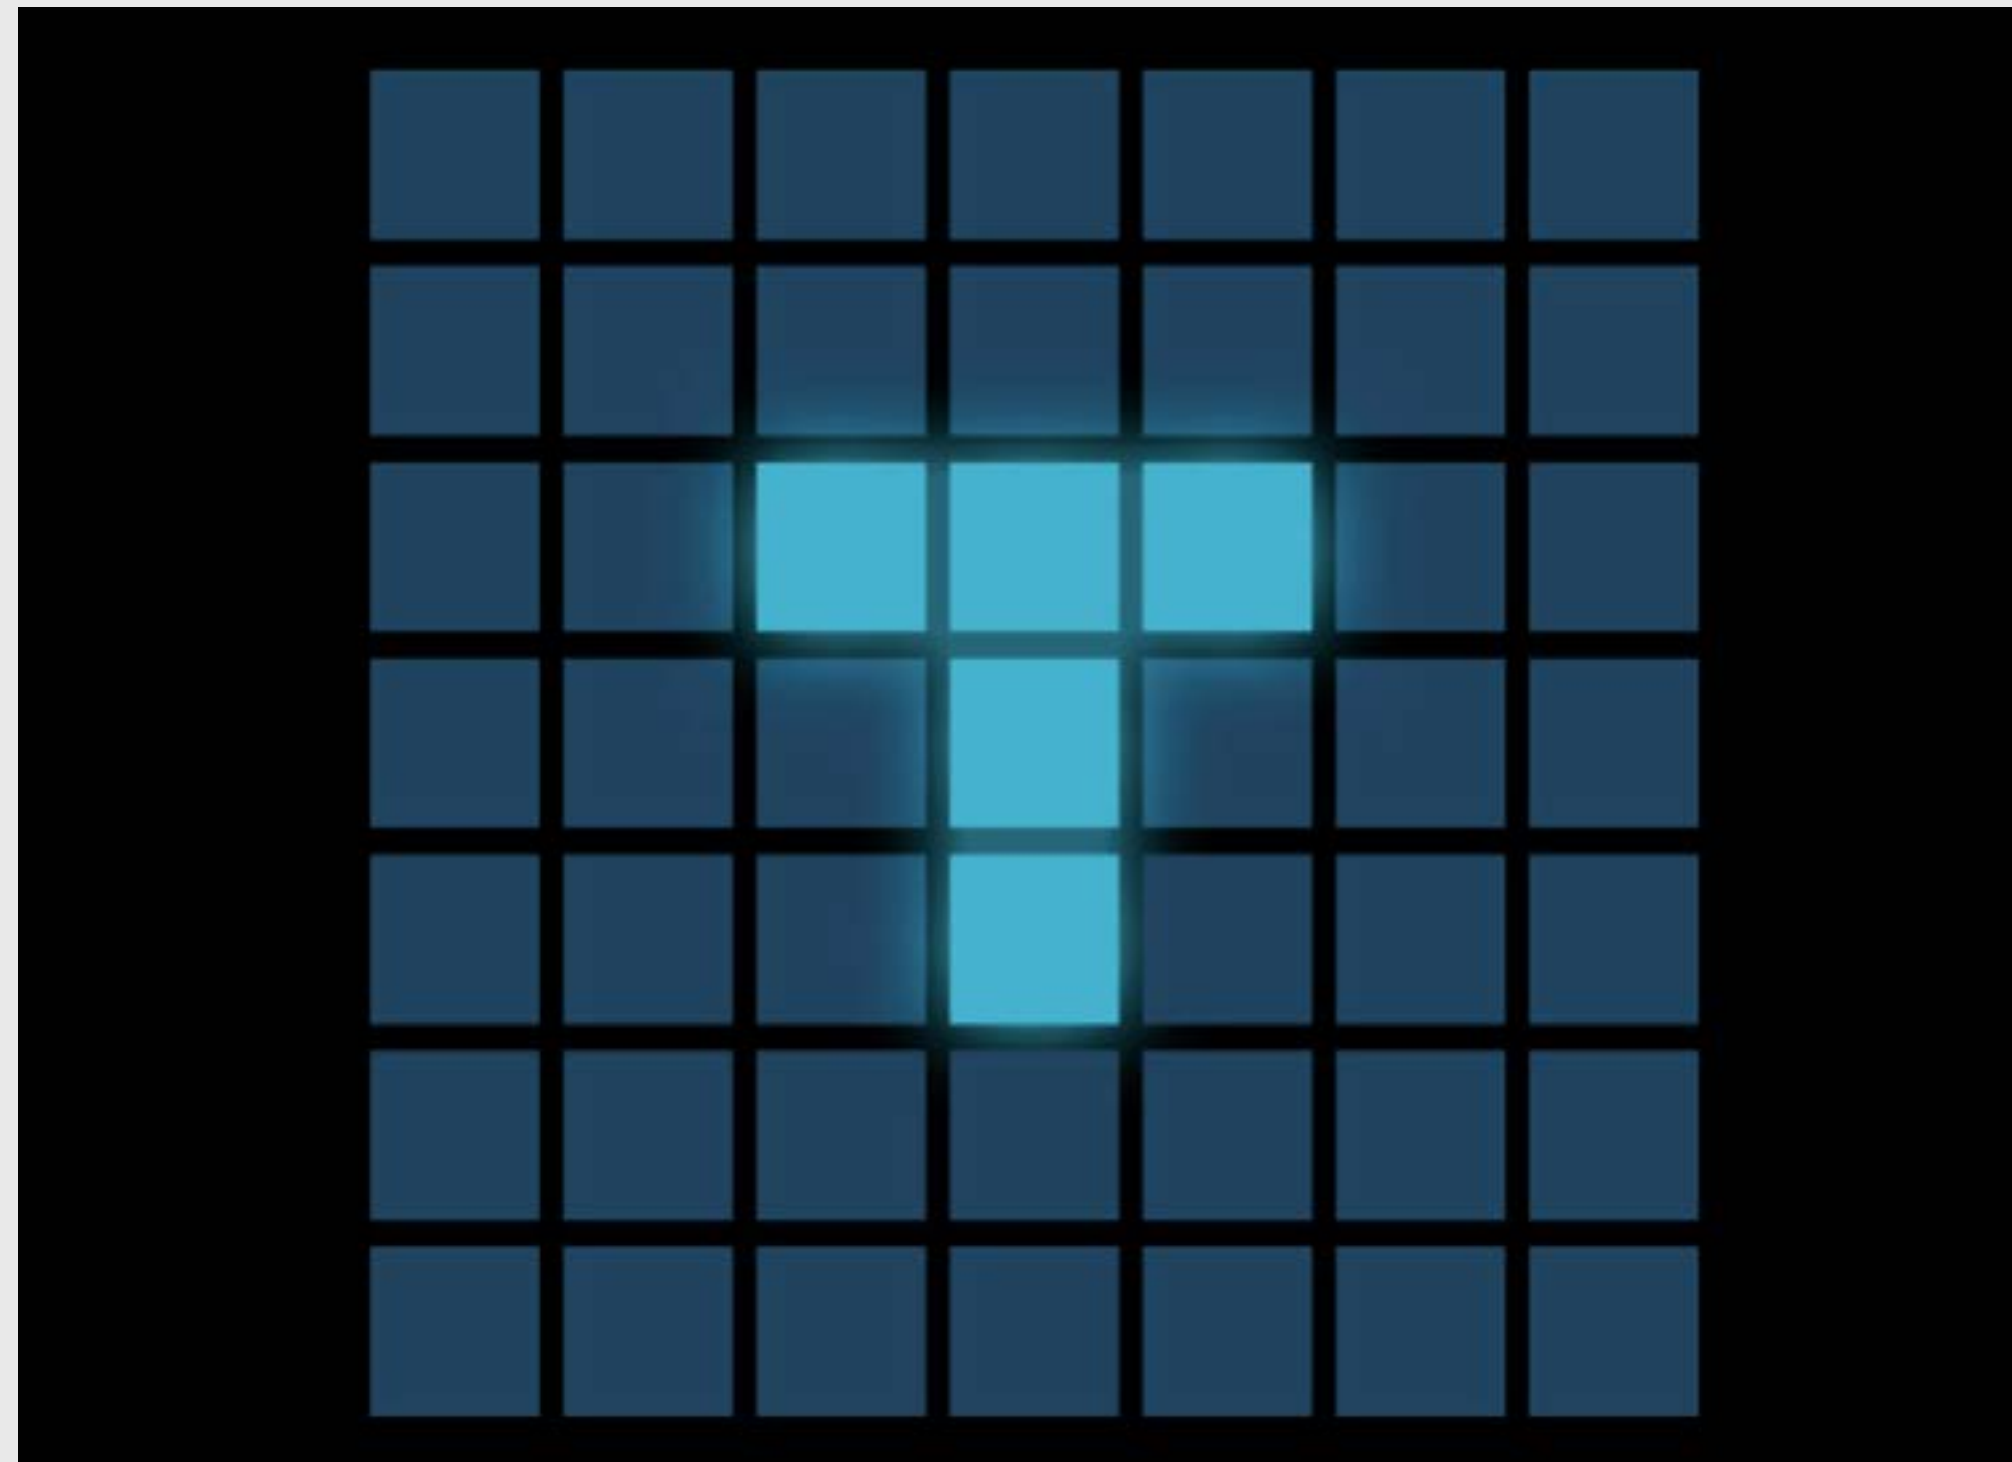

### MYSTERY OVERLAY

When you enter Free Spins, the Mystery Overlay feature is activated, and 5 Mystery symbols appear on the reels: 1 in the center of the play area and 4 more on the positions horizontally and vertically adjacent to the center. The Mystery symbols are then revealed to form a winning cluster of low win or medium win symbols. Every Free Spin, additional Mystery symbols may randomly appear on the reels.

If any additional Mystery symbol is horizontally or vertically adjacent to one of the positions of the initial cluster of Mystery symbols, the additional Mystery symbol position becomes a part of the cluster until Free Spins end.

## WINNING CLUSTERS

A symbol is part of a cluster if it is horizontally or vertically adjacent to the same symbol. Multiple clusters of the same symbol that are not adjacent to each other pay as separate clusters. A cluster win is equal to the value shown in the Paytable multiplied by any applicable multipliers. Only the highest win per cluster is paid. Simultaneous wins from multiple clusters are added.
