

“A word from the producer”

As the scary season is just around the corner, iSoftBet have created a suitably spooky slot in Ghosts 'N' Gold, where the ghastly ghost can swoop across the reels to add extra wilds for hair-raising excitement!

Are you brave enough to enter the haunted mansion and spin the reels on this brand new Halloween slot? Beware of the creepy 5-reel layout, which offers a massive 3,888 ways to win and features plenty of ghostly tricks to keep players on the edge of their seats.

On any spin, the Wild Ghost can appear to add between 3 & 8 extra wilds to the reels - while 3 or 4 Bonus symbols will trigger 8 or 18 Free Spins, during which the Wild Ghost can appear more frequently to produce some scarily big wins.

With its spine-tingling setting and chilling soundtrack, this is the perfect game to get your players in the true Halloween spirit!
