Brand story

Creedroomz by BetConstruct offers a fresh perspective on the online gaming business and entertainment. In 2020, the year when all physical casinos shut their doors for the first time since the moment of their opening, Creedroomz created and developed a range of igaming solutions that allows to start an online gaming operation or even transform an existing casino into an online business.

As a means to support both starting businesses and existing operators, Creedroomz sees its success in the unity of three main cornerstones: flexibility, transparency, and individual approach. These parts form the backbone of Creedroomz and reflect the company's philosophy and business approach.
