## Game Theme and Graphics

The legend of wild power reaches far beyond Grand Canyon. It is mysterious and captivating and “Buffalo Power Megaways™” tells this story better than any far traveler. Animal spirits of bear, cougar, eagle and owl are fighting under the red unforgiving sun of Arizona desert as symbols with the highest payout. Wise and cunning buffalo outsmarts his rivals as a Wild symbol that becomes x2 in Free Spins mode. This premium slot with Megaways™ feature is a perfect representation of famous cycle of life concept. It has it all - circular motion of spins, multiple lifelines to become victorious and wild uncontrollable stream of energy that blasts and bursts throughout the whole gameplay. Scatter symbols show distant rocky formations that accumulate the energy of lightnings, Bonus symbols are balls of hot plasma and Power symbols in the form of golden coins are heralds of upcoming wealth.

### Game screen

## Randomization

### Random Number Generator (RNG)

The algorithm used for random number generation (RNG) is Quantis, physical random number generator exploiting an elementary quantum optics process. Quantis has been evaluated and certified by the Swiss Federal Office of Metrology (also known as METAS), the Swiss national organization in charge of measurement science, testing and compliance. It confirmed that the quality of its random output complies with the highest requirements. See the Certificate of Conformity and read the Test Report on <http://www.idquantique.com>.

Quantis has also been evaluated by Compliance Testing Laboratory (Bangor, UK), which confirmed that it is "suitably unpredictable and fit for purpose". Download certificate in PDF format <http://marketing.idquantique.com/acton/attachment/11868/f-0117/1/-/-/-/-/Quantis%20Certifications%20Collection.pdf>.

Quantis has also been approved by national authorities and can be used for gaming applications.

## Malfunction Management

If a player attempts to access a game using an invalidated session, (for example, due to inactivity or system restart) an error message is displayed in the game. The player can then log on again and resume game play. The game state is always stored so the player can resume game play exactly where he or she left off.

In case of an HTTP error, network timeout or server error a "technical error" message will be displayed to the player.

## Information to the Player

Players have access to game rules from within the game at all times.
