

Game Overview

Aztec Powernudge

AZTEC POWERNUDGE

Game Description (for Players)

Head into the jungle and discover shining gems in Aztec Powernudge.

Set deep amongst ancient ruins, symbols including colourful jewels and card ranks appear on the game's 6×5 grid. At least eight of these symbols must land with a pays anywhere system in place to award a win. Multiplier symbols, in the form of diamonds, can also appear on any spin during the base game, carrying values between x5 and x100 that apply to any win on that spin.

The Powernudge feature collects wins in a meter, and the reels containing winning symbols are nudged down one spot to reveal another symbol from the top. The win is then collected again for all combinations on screen, with the feature ending once no more wins appear. During a Powernudge sequence, Scatters are collected and if four or more of them land during the sequence, a free spins bonus round is activated.

What to expect:

- During the bonus round, Multiplier symbols can reach value of up to x250, x500 or x1,000 alongside all other possible values
- Collecting a further three Scatters in the same nudge sequence during the bonus round will retrigger the feature, awarding a further five free games
- The bonus round has a guaranteed minimum win of x15, with further free spins awarded should the player not reach the minimum in the allocated spins
