

BEASTWOOD

BEASTWOOD

Like a lone pirate on dry land, Mr Beastwood is combing through the forests of Beastwood in search of monsters. When this former sea bandit found out there's fame and fortune in the monster-hunting business, he swiftly ditched his crew at sea and changed careers.

Striking out on his own, he now spends day and night slaying dangerous beasts with his golden harpoon. Join him on his first mission, where you'll track down monsters with scrolls and trap them with gold chains. There's a surprising number of monsters hiding in the foliage – and great rewards to be had!

Beastwood is a Ways game that introduces a new original IP and a continuation of the fan-favourite mechanics from Wins of Fortune (2017) and Wild Chase: Tokyo Go (2019). This slot is 4 reels high and boasts high volatility, a chance to win up to 29,000x your bet, a Buy feature, Expanding Ways that can grow forever (a grid that grows with each win), Symbol Win Multipliers that multiply your win if you hit two or more of the same symbol, Reel Multipliers that double your win, plus an exciting Free Spins Bonus where the multipliers really start to pay

Game Features

Symbol Win Multipliers

Each win is awarded a multiplier of x1 to begin with. The Symbol Win Multiplier can be increased by the Reel Multipliers, and if multiple copies of a symbol land on a reel and they're part of a win.

Whenever a new multiplier is won, it multiplies the existing Symbol Win Multiplier. Each symbol has one pay table entry. The win amount awarded for each win at the end of a spin is the pay table entry for the symbol, multiplied by the respective Symbol Win Multiplier.

Ways

A win consists of a chain of at least 3 reels that contain the same symbol type, starting with the first reel.

Expanding Ways

The game starts off with 3 reels. If there are any wins, an extra reel is awarded on the right-hand side of the reels. Whenever an extra reel extends any existing win, another extra reel is awarded.

Reel Multipliers

During the base game and starting from reel number 5, every third reel has a Reel Multiplier. These Reel Multipliers have a x2 multiplier attached to them. Whenever a win has a reel with a Reel Multiplier as part of it, the multiplier is applied to the win.

Free Spins Bonus

In the base game, landing 4 or more Bonus symbols anywhere on the screen will award free spins. When you get 4 Bonus symbols, 10 free spins are awarded. Any additional Bonus symbols will award +3 free spins.

During the Free Spins Bonus and starting from reel number 4, every reel has a Reel Multiplier. Each Bonus symbol that lands on the reels during the bonus game will award +1 free spin.
