Game features

Respin Bonus

3-6 Bonus Scatters will trigger the Respin bonus. The reels that the scatters land on are opened, the other reels are closed. Any fish that land on reels on the triggering spin (including reels which scatters are not on) are locked in for the start of the bonus. The scatters will disappear from the open reels before Respin bonus starts. All symbols positions will spin to see if a fish lands within them. On open reels a fish spun in will lock and will be paid at the end of the bonus. On closed reels fish will not lock and are not paid at the end of the bonus (they are just to show what could be won on those reels) Scatters can land on closed reels and will open them. Scatters cannot land on open reels. The player

has 3 lives which are decremented on each respin round when no fish appear on open reels (including scatters which open reels) and are reset to 3 when they do. When no more lives, bonus ends and player wins all fish locked in view.

Big Game Jackpot Fish

Big Game Jackpot Fish can land on reel 6. There are 4 levels of Jackpot Fish. These pay out fixed prizes if they form a way win with other cash symbols.

Buy Feature

Choose to instantly play the Respin Bonus.

Shark Feature

During the Respin bonus, if a reel fills up with fish, a shark will swim up the reel. It will eat all of the fish and leave a Skeleton on the top position, adding all of the cash prizes from the fish together and applying a x2 multiplier to the total. This can happen multiple times on each reel!

Giant Squid

A giant squid can rearrange cash fish symbols to create or improve wins on any random spin. In the base game, it will swap positions of cash fish symbols with other symbols to create or improve a cash fish win. In the respin bonus, it may move a cash fish symbol from a closed reel position to an open one which will lock it in place to be paid at end of the bonus.

Cash Ways

Cash symbols spin in as normal symbols on every reel. They increase in average value from left to right (not specified to the player in game), and pay out as their cash values if they form a way win.

Game rules

INTRODUCTION

4 Fantastic Fish is a 6-reel, 4,096 Ways slot created by 4ThePlayer.com. Ways slots remove paylines to make it easier to see the wins. A win is formed from consecutive symbols starting from the first reel.

Fish for the biggest prizes in the sea by catching Fish symbols, which pay out as way wins and might land you 1 of 4 jackpot prizes! Reel in 3 Respin scatters to win the Respin Bonus and net as many Fish symbols as you can – watch out for the shark who will collect and multiply your wins! Will you get a helping hand from the squid in either the main game or Respin bonus, as it swaps fish to create more wins?

HOW TO PLAY?

The player chooses their bet amount using the + and – buttons. All wins are multiplied by the bet. For details on win payouts see the game payable.

To play the game, the player presses the SPIN BUTTON. If playing on PC and if enabled in the game options menu, the space bar can also be used to spin the reels.

Winning symbols are raised over the reels when the spin stops.

Wins pay from left to right.

SYMBOLS

WILD

The Wild symbol substitutes for every symbol apart from scatters.

RESPIN SCATTER

3 or more Respin scatters in view will award the Respin Bonus. Respin scatters can land on any reel.

CASH WAYS

Fish symbols can land in view on any reel. Fish symbols land with cash prizes attached to them, and can win as per any other normal way win, on adjacent reels from left to right. When a win occurs, any Fish symbols involved in the win will award the total prize shown on the symbol.

BIG GAME JACKPOT FISH

Big Game Jackpot Fish can land on reel 6. They will award one of 4 large jackpot prizes if they are involved in a Fish symbol way win.

RESPIN BONUS

3 or more Respin scatters in view will award the Respin Bonus. Each reel that a scatter lands on will be open; all other reels will be closed.

Any Fish symbols that land on the triggering spin will be locked on the reels, regardless of whether they land on a reel that is open or closed.

All symbol positions will spin and any new Fish symbols that land on open reels will be locked in place. Fish symbols that land on closed reels will not be locked.

If a Respin scatter lands on a closed reel, that reel will be opened for subsequent respins. Respin scatters cannot land on already open reels.

The player will have 3 respins. If a new Fish symbol is locked in place or a Respin scatter opens up a closed reel on a respin, the number of remaining respins will be reset to 3.

When the player runs out of respins, the bonus is over and the cash prizes from all Fish symbols that were locked to open reels will be awarded.

SHARK FEATURE

If an open reel is completely filled with locked Fish symbols, a shark will swim up that reel and collect the cash prizes from all of the Fish symbols. The total prize will be multiplied by 2x and held in the top position of the reel; the other reel positions will then be reopened for new Fish symbols to land in.

GIANT SQUID BONUS

On any spin, the Giant Squid might appear and rearrange Fish symbols.

MAIN GAME

The Squid might swap symbols to create or improve a Fish symbol win.

RESPIN BONUS

The Squid might move a Fish symbol from a closed reel to an open reel to lock it in place.

BUY FEATURE

Playing Buy Feature will trigger a Respin feature.

Buy Feature is played at 60x the player's total bet.

Buy Feature can only be activated in the base game.

HOW TO CALCULATE A WIN WITH 4,096 WAYS

If any of the reels contain more than 1 instance of a symbol, the win will be multiplied.

Multiply the number of symbols on each of the reels to get the final payout multiplier.

For example, if the first reel contains 2 symbols, second reel 3 symbols and third reel 2 symbols, the payable value is multiplied by $2 \times 3 \times 2 = 12$.

Simultaneous or coinciding wins on different ways are added

AUTOPLAY

Autoplay allows the player to play without pressing spin. To open Autoplay, press the AUTOPLAY button (the small button with 4 arrows and a play icon in the middle).

The player can choose the number of spins, loss limit, and single win limit. The spins will automatically stop when the chosen number is reached or when the loss limit or single win limit is hit.

When Autoplay is active, the AUTOPLAY button becomes a STOP button which displays the number of remaining spins. Press the STOP button to stop Autoplay spins.
