About Red Tiger Jackpots

Like all Red Tiger slots, Gods of Troy may be taken with or without Red Tiger jackpots. If a jackpot version of the base game is taken, it must be paired with a jackpot contribution to get the final overall RTP of the game. For example pairing the with-jackpot base game certified at 94.72% RTP and adding a 1% jackpot contribution gives an overall RTP of 95.72%. The RTP of the jackpot contribution itself is 100%.

SHIELD & WREATH

Each spin is numbered from 1 to 10, indicated by a counter above the slot scene. Golden Shields may appear on every spin and will leave behind a Golden Wreath if they do. Golden Wreaths stay locked on their position until the 10th spin. If a Golden Shield lands on a wreath it will duplicate it on another random tile position that does not already have a wreath on it. On every 10th spin all Golden Wreaths will turn into Wild symbols.

TROY SPINS

3 or more Troy Spins scatters anywhere on the reels trigger Troy Spins. Troy Spins scatters do not appear during the 10th spin. Golden Shields and Golden Wreaths do not appear during Troy Spins. Instead, a number of Wilds are always present on the reels and they change their position on each Free Spin. Sometimes Wilds may remain in the same position after a spin. At the start of the bonus round a wheel must be spun to decide how many Free Spins with how many Wild symbols ever present on the reels will be awarded. The maximum number of Free Spins and the maximum number of Wilds which may be awarded by the wheel is determined by how many Troy Spins scatters have triggered the bonus round and each Troy Spins scatter that lands during the bonus round awards an additional Free Spin. They are as follows:

- 3x scatters - maximum 15 spins and maximum 10 Wilds may be won from the wheel
- 4x scatters - maximum 25 spins and maximum 12 Wilds may be won from the wheel
- 5x scatters - maximum 50 spins and maximum 15 Wilds may be won from the wheel
