Business Summary

The empire of Qin, the first emperor awaits. The terracotta warriors are the key to this ancient and intriguing time. Jade Cauldrons open the quad Qins Empire feature that unlocks levels as the feature progresses. Trigger the feature with Gold Cauldrons and the unlocking is already complete.

3 or more scattered TEMPLE symbols trigger free games. Only 5 scatter Cauldrons are required to trigger the Qins Empire feature and if the CAISHEN symbol lands it will expand to fill the entire reel window.

In the base game, 6 or more scattered Jade or Golden Cauldrons will trigger the Qins Empire feature. Players collect Cauldrons to be awarded prizes. The more Cauldrons collected the more windows will open and the more prizes given.

Fill any windows with Cauldrons and the Grand Bonus is awarded.

This game can be played on the following devices and orientations:

- Desktop
- Tablet in both landscape and portrait modes
- Mobile in both landscape and portrait modes

For information on supported mobile devices and information on how to configure game limits to control house exposure, see the [GPAS Integration Options](#) document.

This game supports Free Spins Bonus (FSB).

Base Cost

When configuring a game, you can set a **Base Cost Multiplier**, which multiplies the Base Cost (minimum size bet) set by Playtech. This means that while the number of lines in this game is 50 lines, the Base Cost to play is set to 10 by Playtech - you can then set a Base Cost Multiplier to set the stake levels for the game.

This is an innovative feature that allows Playtech to offer games that are more amenable to cheap Free Spins Bonus promotions, while still allowing Playtech games to deliver the full range of features and winlines.

For example, on this game the Free Spins Bonus can be promoted at a cost of 10p (Base Cost Multiplier 1), while still being able have the game available at a default cost of 20p (Base Cost multiplier 4) or even 40p (Base Cost multiplier 8).

There are no fractional betting and rounding concerns.

Examples are in the table below:

Base Cost Multiplier	Stake (GBP Example)
1	10p
2	20p
3	30p
4	40p
5	50p
